3 CUTTEN RAIDERS CAUGHT

2,000 SOLDIERS OF IRISH ARMY QUIT COLLINS

NEWS SUMMARY

LOCAL

Former butler of Arthur W. Cutten admits leading \$20,000 raid on millionaire grain broker and tells of plot to kidnap victim.

Voters bewildered by the mixup in Republican ranks in county.

The Bureau of Public Efficiency sends letter of protest to county board relating to proposed new tax of \$4,402,717 for highways, which it calls an abuse of power.

Officials of trolley workers' union declare they will fight plan of Thompson administration to reduce fares by shifting the burden to the men who work for the surface lines.

TRIBUNE writer starts series of articles on radio telephony, which he explains as merely an adaptation of long known principle.

Every Republican woman voter in Chicago is to receive a sample ballot marked by Woman's Roosevelt Republican club.

Big Part of Dublin Forces Desert.

DUBLIN, April 2.—[By the Associated Press.]—The serious extent of the split in the ranks of the Irish republican army was revealed this afternoon when from five Dublin battalions which had been ordered out to take a "new oath of allegiance or less than 2,000 men obeyed the republican order and marched to Smithfield.

Then in the presence of Liam Mellows, Roderick O'Connor, and other heads of the republican movement, they took the oath of allegiance to free themselves from any further responsibility to the Dail Eireann.

The extremists tonight expressed their satisfaction at the response to their appeal. A large crowd, including contingents from the women's organization, witnessed the parade of the battalions, but gave no demonstration of sympathy beyond their presence.

De Valera Attacks New Treaty.

The campaign of election oratory continued today. Eamon de Valera addressed a demonstration at Dundalk. Referring to the new peace pact, he said that already in North Ireland it was regarded as a scrap of paper.

Michael Collins spoke at Castlebar, and declared opened up a new era of hope and added immensely to the prospects of a union between the north and south. That prospect, he said, would become almost a certainty if the people could reach an understanding among themselves. An appeal was made by Mr. Collins for consideration of this point by the following.

Belfast Sees Peace Vanishing.

Chicago Tribune Foreign News Service.

BELFAST, April 2.—All hopes for peace between the two Irish states may have been shattered by the appalling events of last night in Belfast. The murder of Constable Turner near the Old Lodge road was followed by terrible reprisals. Four Catholics were shot dead in their homes, some of them being dragged from their beds. Two others were in bed with one of the slain men, and were wounded.

A woman ran wild through the streets in a large district, screaming murder. Many families fled their homes for the night. It was midnight before order was restored.

Relatives of the victims say the men who ran amuck were partly uniformed and partly civilian. It was the most terrible night Belfast has yet experienced.

DOMESTIC.

State is ready to begin Gov. Small's trial today; delay depends upon his attitude.

Four robbers bind A. R. Shattuck, wife, and seven servants and steal \$90,000 in New York financier's home.

Stand of 100,000 nonunion coal miners on strike to be shown today, when they are due to resume work.

Southern Illinois coal operator predicts state union leaders will send out "feelers" looking to settlement of strike.

Ten men hold up sugar special on New York Central and break into seven cars. Evidently intended to rob "silk and money special," which had passed fifteen minutes earlier.

"Impressive funeral ceremonies in Brooklyn for last of American hero dead ever to be returned from France.

WASHINGTON.

Fight against reduction of the navy personnel opened by Representative Rogers of Massachusetts.

Senator McCumber of North Dakota says soldier bonus bill will be taken up by the senate finance committee as soon as tariff bill is reported to the senate.

SPORTING.

Meyers and Parcuit promise keen battle in middleweight title bout here tonight.

The De Valeraites are issuing proclamations announcing a more bitter boycott of North Ireland than before. It is irony, perhaps, that these are published from the Orangeites' grand lodge hall in Dublin, which was seized by De Valera's followers.

Selma Rich Dublin Club.

LONDON, April 3.—The Morning Post learns that republicans on Saturday forcibly occupied the Kildare Street club, Dublin, which is the principal rendezvous of the land owning class in Ireland.

Bandit Drops the Jewels
Seized from Miss Walton

New York, April 2.—A bandit tonight kidnapped a jewel box from the arms of Miss Walton, dancer, as she alighted from a automobile in East 5th street, but dropped the jewels in the street and fled when attacked by the woman's dancing partner, Leon Johnson. Miss Walton told the police she pens were valued at \$150,000.

PLOT TO KIDNAP BROKER TOLD BY EX-BUTLER

Were to Ask Ransom for Millionaire.

(Pictures on back page.)

Three men, one of them a former employee of Arthur W. Cutten, millionaire grain broker, are being held at the detective bureau following the confession of one of them that he and six others planned and carried out the \$20,000 robbery last Monday night at the Cutten mansion near Downers Grove, following the failure of a plot to kidnap the millionaire and hold him for ransom.

The men are Joseph Vormittag, 28, Bissell street, former butler; Paul Grabowski, 1124 Lillie avenue, and Otto Vormittag, 2121 North St. Louis avenue.

Vormittag said he had left Mr. Cutten's employ nine months ago. Four months ago, he said, he conceived the idea of robbing the Cutten home. Then it was decided to kidnap the grain broker.

Planning the Robbery.

Grabowski, who has five children, was the first man to whom he told his plan.

"I went to Paul Grabowski," he said, "and told him all about the house and how easy it would be to enter it. The first plan that I had was to steal the whisky I knew was in the cellar and kidnap Mr. Cutten."

"I asked Paul if he could get me in touch with some one who had nerve enough to pull a job like that? Paul talked it over with a north side saloon keeper, and Paul and the saloonkeeper and Paul's son and I drove out to Downers Grove."

"We figured out the easiest entrance, and had everything fixed for the robbery. But the saloonkeeper was too slow for me. That was about six weeks ago."

"I got in touch with some more men, but they didn't act fast enough either. Finally Paul called me over the phone, and said that he had it all fixed up. I went over to see him, and he took me to a little grocery at 2121 North St. Louis avenue, where we met Tempe. I told Tempe all about it and he said to come back the next day.

Meet at Grocery.

"When Paul and I got there we found four men there. There were Joe and three others. We went out the Saturday before we made the haul and looked the place over once more. Then we decided that we would pull the job on Monday night. We still stuck to the plan of kidnaping Cutten."

"Otto and three men—one of them had a Haynes automobile—and I came to the grocery at 10 o'clock Monday morning. We were there until 3 in the afternoon taking things over."

"Then the five of us drove to the Aurora and Elgin railway station and the car and ourselves and waited for Mr. Cutten to arrive. His chauffeur was there awaiting him.

"Mr. Cutten finally came and when he drove away we drove after him. We planned to have two of the men jump on the running board of his car and we were going to cover him and his chauffeur with revolvers and get away with Mr. Cutten."

Car Goes in Ditch.

"We drove after the Cutten machine along Butterfield road, but the chauffeur was driving too fast for us and we went off into a ditch. We stayed there until a farmer helped us out.

"We then went to the residence.

We went up to the back door and rang the bell and asked for gasoline. The maid told us that we could have it, and called the butler, John Johnson. We covered him with revolvers.

"We went into the house and drove the Cutten family into a room upstairs and made them lie on their faces while we stripped them of their jewels. Then we took Mr. Cutten downstairs and made him open the vault.

Seize Cutten Truck.

"In the meantime the truck they used for hauling groceries and things drove up to the house. It was the gardener and another man. We got the men out and put them under guard while we put the whisky in the vault."

"After that two of the men took the Haynes car and we met them and put the whisky in it. They took the jewels, and we climbed into the truck. In the truck were Otto and another man, and I was driving. Johnson came along behind in another car and emptied his shotgun at us. I was shot in the head and Otto was struck in the back several times, but we managed to get away."

Vormittag's name was furnished to the police by Mr. Cutten. He was arrested at his home and taken to the bureau. There, questioned by Chief of Detectives Hughes and Lieut. Axel Jensen, he confessed.

All Serbia Rocked by Earthquakes

Continuous Shocks Smash Many Houses

(Picture on back page.)

BELGRADE, April 2.—[By the Associated Press.]—Continuous heavy earth shocks are occurring throughout Serbia. More than 100 houses have been destroyed and many others damaged. The monetary loss up to the present time is estimated at 30,000,000 dinars. (Normally, the dinar is worth 12 cents.)

The authorities in certain districts have advised the people to keep out doors as much as possible and to watch various animals for the signs of fear they show in anticipation of earth shocks.

NO SCOOP ON MILWAUKEE.

Milwaukee, Wis., April 2.—The seismograph at Marquette university here today recorded a severe earthquake shock beginning at 1:38 p. m. and lasting for half an hour, with one minute of intense shock at 1:44 p. m. The center of the disturbance is believed to have been 5,600 miles east and a little south, approximately the center of Italy.

Recorded at Georgetown.

Washington, D. C., April 2.—An earth movement of pronounced intensity was recorded this afternoon on the seismograph instruments at Georgetown university. It lasted from 2:47 p. m. to 2:52 p. m. and was estimated to have been centered about 2,000 miles from Washington.

It was upon Mrs. Brook's lips to question her about the grocery business?" began Mary.

"The people have been very kind," he said. And they discussed the pros and cons of the situation, including the unaccountable shift in the attitude of the Advertiser and its evident desire later to avoid a lawsuit over the violation of contract.

With her confidential knowledge of most of Mr. Stabb's affairs, Mary was able to explain to herself these matters, and she wished with her whole heart that she might give him the facts, when suddenly she was amazed to find her own thoughts being spoken.

"Mr. Stabb naturally does not want his name to be mentioned in connection with the Pioneer stores to become known to the detective bureau," he said, "but I have no objection to that. It might cost him his position. It might come out in a trial, so he will be forced to change his tactics."

He went into the parlor, where again his eyes rested on the photograph of Mrs. Lannard. He remembered that Miss Brook had told him she knew Muriel and that the Lannards had once lived in Adamant before success had lured them away to the wider horizons of life in the fashionable circles of New York.

Mrs. Brook greeted him kindly. She was nice and old fashioned in her manner, and, although he was utterly unconscious of it, she studied him with the same interest as a mother who has a marriageable daughter.

"You have given us much to think about since you came to Adamant," she said.

"I've found my work here very interesting. Mrs. Brook does not like me, Miss Brook. He thinks I am well, to put it mildly, an adventurer. The fact that I arrived in town in a car and sold it at a low price is a fact that I have to live with."

"Mr. Stabb does not like me, Miss Brook. He thinks I am well, to put it mildly, an adventurer. The fact that I arrived in town in a car and sold it at a low price is a fact that I have to live with."

"

MEXICO'S LAND POLICY ONLY A RUSE TO STEAL

Foreigners Are Victims in
Kinsley's Report.

BY PHILIP KINSLEY.
El Paso, Tex., April 2.—[Special.]—
"If you pinch an ox long enough, he
will fight."

This old Spanish saying is applied by Mexican farmers to the position in which they find themselves under the government policy of taking choice private lands away from them and giving them to the Indians.

The Syndicate of Agriculturists has been formed to fight the government in these actions. It extends into every state in the republic and has control of a big fund. With the business element in the cities, which is laboring under heavy taxation and suffering from lack of funds, this forms the chief menace to the Obregón administration.

Million Acres Stolen.

One million acres of land has been taken by the government and redistributed to the Indians according to Don Guillermo Pous, head of the farmers' syndicate. This has been without compensation, for the government that its members will not accept the proposed agrarian bonds in payment for the lands.

The Spanish spokesman has given similar notice. The bonds are regarded as worthless, since the government defaulted in payment of all other bonds now outstanding. The government has no credit among its people in Jalisco, Morelos, and Hidalgo. Señor Pous said, the best lands of these states have been seized. The Indians have not been able to do much, because they have no tools and no capital.

Years for Days of Slavery:

The government is making an effort to supply these needs through agricultural schools and passing around implements. The work is slow, and in the meantime the planters are planting and the Indians are disillusioned and hungry. In the old days the hacienda owner came around and fed them. Now they are forced to go to work at low wages in order to buy United States corn.

The theory of the agrarian law, the division of idle lands owned by the rich, is accepted by liberals everywhere, but the work is slow, and in the meantime the planters are disillusioned and hungry. In the old days the hacienda owner came around and fed them. Now they are forced to go to work at low wages in order to buy United States corn.

Another protest has been made from this district in the case of A. W. Geist, American owner of a ranch near the port of Mazatlán. For a year he has been fighting to get his land back.

Geist bought this place in 1896. A year ago the owners were notified that the state was preparing to divide the lands. Protest was made and the division was stopped.

Passing the Mexican Buck.

A year ago notice was served by the National Agrarian commission that it had been decided to appropriate the choicest parts for the Indians in a nearby village. Under this seizure Jones would be at the mercy of the new owners for every drop of water to run his place. He appealed to the governor of Jalisco, who said he could do nothing.

The British consul then applied to Foreign Secretary Pani in Mexico City. Señor Pani said the governor of Jalisco would have to settle it.

Señor Mendoza, the Jalisco secretary of state, was recently approached by the British consul, who said he could do nothing, as it had been decided to do nothing, as the crops had been gathered. No exception could be made because Mr. Jones was a British subject. It was suggested that this was hardly international courtesy.

Hides Behind Monroe Doctrine.

One of the most important of these is the quoted as saying:

"Great Britain has a great navy and perhaps it might be able to enforce a change of attitude on the part of the Mexican government. No attention will be paid to any less cogent argument."

Mr. Holmes is reported to have dropped his monocle as he left the room. For there is the Monroe doctrine. Great Britain must appeal to the United States in these matters and the United States can do nothing.

Consequently, Holmes also has a little affair of his own with the Mexican government. He bought El Zapote ranch from Grey W. Lillington. Lillington had agreed before that to sell it to Dr. Ramon Zavala, but Zavala had not kept his contract, so Holmes paid for the ranch and got it, as he thought he had.

He went to war and decided it to his brother. When he returned, he found

the ranch and got it, as he thought he had.

The American Smelting and Refining company did not do any banking on its big Michoacan haciendas this year because of uncertainty over the situation.

ROOSEVELT CLUB (WOMAN'S) WILL WAGE CAMPAIGN

Sends Sample Ballot to
G. O. P. Women.

Every registered Republican woman voter in Chicago is to receive a sample ballot marked according to the instructions made by the Woman's Roosevelt Republican club of which Mrs. Fletcher Dohans is the president and Mrs. Charles Joseph Swan of Evanston are as follows:

State treasurer—Oscar Nelson.

Congressman at large—full term—John J. Brown, Henry R. Rathbone.

Congressman at large, short term—Stephen A. Day.

Members of congress—Second district, James R. Mann; Third, Frank P. Sader; Seventh, Albert O. Anderson; Tenth, Carl R. Chidlow.

State central committeemen—Second district, George W. Reznick; Third, Charles A. St. John, Robert S. Selle, G. Graham; Sixth, Martin H. Ball; Seventh, Emil J. Wentzlaif; Ninth, Walter P. Steffen; Tenth, James J. Barbour.

Indorsed for State Senate.

State Senator—First district, Charles A. Griffin; Third, William H. Huff; Fifth, James E. MacMurray; Seventh, Wilbur L. Castleman; Eleventh, Fred L. Steers; Thirteenth, George E. Q. Johnson; Seventeenth, Robert Orlando; Nineteenth, Albert B. Holbeck; Twenty-first, Charles L. Nelson; Twenty-third, Lowell B. Mason; Twenty-fifth, Robert E. Pomeroy; Twenty-ninth, William Schmitt; Thirtieth, Willett H. Cornwell.

State representatives—First district, Harris B. Gaines; Second, Roger J. Marcy; Third, Warren B. Douglass; Fourth, Augustus L. Williams; Fourth, John Hubbell; Fifth, O. Lee; Fifth, Sidney Lyon; Thomas J. St. John; Sixth, George W. Reznick; Seventh, Henry J. Spingola; Nineteenth, James M. Kittelman; Twenty-third, William G. Thom; Twenty-fifth, Theodore R. Steinert; Twenty-sixth, Fielder C. Pease; Twenty-ninth, Vincent E. Fenton; Thirtieth, Carl Mueller; James A. Stevens.

Sanitary trustees—Thomas O. Wal-

POLITICAL NOTES

Senator Albert C. Clark of the Thirteenth district has been nominated for the Republican renomination by the Torrens Land Title Registration league for his efforts in behalf of Torrens system legislation at Springfield.

Seventy-five cents out of every dollar of taxes paid in Chicago goes to the city government, was the assertion made yesterday by James M. Dailey, a regular Democratic candidate for sheriff, in several south side speeches. "That's too high a percentage," he said. "There's something wrong in the city hall. They are simply burning up the people's money."

Chief Deputy Sheriff H. C. W. Laubenthal will be honored today at the regular noonday reception given the women's division of the Deneen organization at Hotel Sherman. Mrs. Duane T. McNabb will head the receiving line, assisted by 150 active women in the organization.

A special drive starts this morning for the nomination of the three women candidates for the Republican nomination for county commissioners, Mrs. Myrtle Tanner Blackridge, Miss Helen M. Bennett and Mrs. Emily Dean.

Edward E. Elliott, formerly in

lace, Solomon P. Roderick, Robert Isham Randolph.

Sheriff—H. C. W. Laubenthal.

County Treasurer—Charles Ringer.

Probate Judge—Jeron W. Crowley.

Criminal Court Clerk—John F. De-

vine.

Superintendent of Schools—Orville T. Bright Jr.

Board of Assessors—August F. W. Siebel.

Board of Review—Edward R. Litsinger.

President County Board—Charles S. Peterson.

For County Board.

County Commissioners, city—Charles S. Goodnow, Tom Murray, Charles S. Peterson, John R. Palendech, Thomas A. Boyer, Myrtle Tanner Blackridge, Helen M. Bennett, Berger O. Bergeron, Emily Washburn Dean.

County commissioners, country—George E. Hand, James Harper, Michael Schlesier, Gertrude C. Lieber, Howard Ward and precinct workers of the club will meet for final instructions at 2:30 this afternoon in the Tiger room, Hotel Sherman.

Sanitary trustees—Thomas O. Wal-

SPEAKER BLAMES CITY MACHINE FOR HIGH TAXES

Final Week of Primary Campaign Opens.

The city hall and the Lundin-Thompson machine were charged directly yesterday with full responsibility for the present state of confederacy taxes.

Edmond K. Jareck, regular candidate for the Democratic nomination for County Judge, places the blame squarely upon the present city administration in a speech yesterday afternoon at Lawndale avenue and Wolfram street.

"There is only one issue in this campaign aside from that of the personal fitness of the candidates," he said, "and that is the condition of our city government. The waste and extravagance too soon as they desire to save themselves and further recklessness in the imposition of the burden of taxation on the people that is causing widespread suffering."

"The stories that have come to me from small home owners indicate that thousands of them now unemployed are in imminent danger of losing their homes. The people cannot make a living too soon as they desire to save themselves and further recklessness in the imposition of the burden of taxation on the people that is causing widespread suffering."

The stories that have come to me from small home owners indicate that thousands of them now unemployed are in imminent danger of losing their homes. The people cannot make a living too soon as they desire to save themselves and further recklessness in the imposition of the burden of taxation on the people that is causing widespread suffering."

City Clerk James T. Igoe, manager of the primary campaign of the "Citizens' Democratic Organization," last night charged that the regular organization not attempting to get out the full registered Democratic vote.

"I call on every registered Democratic voter to realize the full responsibility that rests upon them, and not permit the Sherman house clique to determine just enough votes to shut out the

other honest, ambitious, and loyal Democrats," Mr. Igoe said. "The Sherman house clique is badly frightened. It back room organization is badly cracked and it can force what a smashing it will get on primary day.

"That is why they hope only for a Brennan delivered vote. Their attempt to hold the Democrats by injecting into the primary contest the names of a former member of the party, and sending out misleading statements that their back room slate is given over by these individuals has failed. Now their only hope is to keep honest Democrats away from the polls on primary day.

Wants Big Vote.

"Don't be misled and don't be disenchanted. It is the timely warning I am giving to every registered voter in Chicago and Cook county."

On the Republican side the Deneen organization issued a statement through Ald. Guy Guernsey, chairman of the campaign committee, claiming a victory for their entire ticket next week.

"In the two spots on which our opponents have been deteriorating concentrating for the last week we have outdistanced them," the statement reads. "I refer to the battle for the nomination for sheriff and county treasurer. For these two offices H. C. W. Laubenthal, now chief deputy sheriff and for fourteen years in the sheriff's office, and Wallace G. P. Roderick of our group will also be

a few days.

Balfour Takes Earldom Offered by British King

(Picture on back page.)

LONDON, April 2.—As foreshadowed a few days ago, Sir Arthur Balfour has been offered and has accepted an earldom; it was definitely learned tonight.

Official announcement of his elevation to the house of lords will be made in a few days.

"The quality insures the name—the name insures the quality."

Come in for a demonstration of the superiority that is manifested in KIMBALL Grands, Upright Pianos and Player Pianos.

Recent price reductions are now in effect on the complete line of KIMBALL musical instruments.

The KIMBALL one price policy is every purchaser's assurance of the same satisfying KIMBALL value.

NONUNION STAND IN STRIKE TO BE REVEALED TODAY

Organized Leaders Expect
100,000 to Go Out.

BY ARTHUR EVANS.

Developments in the coal strike to date center in a showdown in the non-union fields. The extent to which the men in the open shop pits answer the whistles this morning will indicate what support the 500,000 union miners who have quit work will be given by the workers in unorganized fields, which produced about 40 per cent of the soft coal output.

On Tuesday, the first day of the strike, 300,000 nonunion miners were reported to have thrown in with the unions, but Saturday was generally observed as the holiday anniversary of the advent of the eight hour day in mining. It was not possible to estimate how many nonunionists were merely celebrating and how many had knocked off work for the walkout.

Factor in 1919 Controversy.

In the 1919 controversy the production from the nonunion fields cut strongly into the strike—the main reason for the intensive effort of the unions to organize West Virginia, Alabama, and other southern coal regions in recent years. Hence today's miners will be followed closely at International headquarters of the United Mine Workers of America at Indianapolis.

"The full effectiveness of the strike will be felt for the first time tomorrow," said William Green, secretary-treasurer of the union, last night. "When the whistles blow today every organized mine will be found closed. Many of the 1,500 open shop pits will be affected, cannot be estimated, but all day long since we have been receiving reports from district presidents, I am sure, thousands of miners will join in Monday and their numbers will increase during the week."

Operators Expect Increase.

Operators declared last night that the strike in the unorganized fields will be shut down. They look for increased production in these regions, which are estimated to have a capacity equal to about 75 per cent of the present consumption of bituminous.

Meanwhile John L. Lewis, international president of the union, is to testify today at Washington before the house committee on labor. It was intended at Indianapolis yesterday that one line of inquiry will lead into the question of whether the miners will control the mines in the Pittsburgh region which refused to enter a four state wage parley, as provided for in the 1920 contract. Organized labor has charged that a large proportion of the eastern and southern mines are controlled by interests which have a dominant position in steel and iron and in most eastern railroads.

Chances that the Pittsburgh operators "forced the strike" on the miners are expected to be aired during the hearing.

Illinois Men and Mines.

A tabulation of the idle men and mines in the sixteen Illinois counties which have had an annual output of 1,000,000 tons or more each for the last five years is as follows, the counts being given in relative rank as producers in 1921:

County	Mines	Men
McHenry	28	15,500
Willow	22	13,500
McCook	18	9,700
Logan	34	8,500
R. Blair	71	7,100
McLean	20	6,500
Madison	20	4,600
Terrell	73	4,200
Montgomery	10	3,900
Christian	11	3,400
Perry	27	3,000
Other	190	2,600

"When that happens the logical conclusion will be almost immediate feelings are thrown out by Illinois union chiefs looking toward a getting together with the Illinois operators," said Dr. Fyke.

Peter Churkin (left) is shown delivering messages to Miss M. A. Ryan in the health department's office. Health Commissioner Bundesen decided to put his messengers on roller skates to speed up deliveries.

	Randolph	Clinton	Jackson	Peoria
	15	2,800	5	1,200

Five-thirty Coal Counties.

In all, fifty-three counties in Illinois produce coal and the total number of mines closed is 1,025. Of these 389 are shipping mines which produce 78,000,000 tons a year, and 646 are local mines which put out 1,800,000 tons. The full number of men idle is 95,783.

At the strike settled down into a deadlock, Illinois miners and coal operators reiterated their belief that the settlement will eventually come through the medium of separate wage agreements. This idea was advanced by Frank Farrington, president of the Illinois union, at the recent meeting of the international at Cleveland. Illinois miners and operators respectively.

The position of the Illinois union, as set forth in public utterances of its leaders during recent weeks, is that the Illinois miners will stick with the rest, but when the strike shows signs of getting wobbly a separate settlement will be negotiated. How long the strike will last has been a favorite guessing contest.

OPERATOR SEES SETTLEMENT OF ILLINOIS STRIKE

Duquoin, Ill., April 2.—[Special.]—A prediction that a part settlement of the coal strike will be brought about in Illinois, despite any existing "four state agreements," was made today by Dr. A. E. Fyke, president of the Marion County Coal company and a prominent mine operator in the southern Illinois field. Dr. Fyke, whose company owns the Chicago-Glen-Ridge mine at Centralia, based his prediction on the belief that whatever strength the union possesses in the western Pennsylvania fields will soon disintegrate, resulting in a return to normal production in that region or a non-union basis.

"When that happens the logical conclusion will be almost immediate feelings are thrown out by Illinois union chiefs looking toward a getting together with the Illinois operators," said Dr. Fyke.

TRIPLE DIVIDE HISTORIC SPOT IN GLACIER PARK

Washington, D. C., April 2.—[Special.]—Locality in Glacier National Park of the only "triple divide" mountain in North America has been signalled by the United States geographical board, which has christened three small creeks originating at that point. Atlantic, Pacific, and Hudson Bay creeks, respectively.

From the summit of triple divide an observer is within pebble casting distance of waters which flow into Hudson Bay on the north, the Pacific ocean to the west, and the Gulf of Mexico to the south.

"I'm not an atheist or agnostic,"

said Mr. Bryan.

"I don't expect you to admit it before an audience," replied Mr. Bryan.

Demands for the man's ejection increased and Lopez sat down.

From all parties the audience came

cries of "Put him out!" The man said his name was Emanuel B. Lopez.

Mr. Bryan answered by saying he did

not appear at the meeting "to teach school" but declared that if the interrupter did not believe in a personal God he did not want him to teach in the public schools.

SCHEME TO MAKE DEAD EXILE'S SON KING OF HUNGARY

Carlists to Ask Return of Prince Otto.

BUDAPEST, April 2.—[By the Associated Press.]—A telegram announcing the death of former King Charles in Madeira reached Budapest late Saturday night, but the news was withheld from the public until today.

The news of the death of Charles caused widespread feelings of regret among all classes of the people. As a precautionary move mounted police patrolled the streets of Budapest throughout Saturday night and today to prevent any untoward incident by royalist supporters. The government decreed today a day of national mourning.

Admiral Horthy, the regent, and Count Stefan Bethlen, the premier, telegraphed condolences on behalf of the nation to former Queen Zita.

Prince Otto, now 5 years old, is the hereditary king of Hungary. This is the only legal way to view the situation, declared Count Albert Apponyi, former premier, today. Count Julius Andrássy and Count Hunyadi made similar statements, which indicate the legitimists are rallying around the eldest son of Charles. It is said that the legitimists, deplored to move in opposition to a bill for the immediate return to Hungary of Otto and his education under Hungarian teachers.

The leading adherents of Charles will hold a big meeting tomorrow.

His Dying Words.

[Associated Press.]—“O God, thy will be done. Into thy hands I commend my soul and the care of my wife and children. I offer thee my life as a sacrifice for my people.”

Thus spoke former Emperor Charles of Austria-Hungary, serene and calm, at the hour of his death.

The body of the former emperor, dressed in the campaign uniform of a field marshal, lay today in the chancery ardent of the house that has been his residence since he came to Madeira in exile.

LOWDEN URGES YANKS TO INVEST GOLD IN EUROPE

Calls It Only Path for Normalcy's Return.

BY FLOYD GIBBONS.

[Chicago Tribune Foreign News Service.]

[Copyright, 1922: By The Chicago Tribune.]

PARIS, April 2.—“Americans and American capital must come to Europe. Americans must interest themselves and invest capital in Europe before a speedy return of business to normalcy may be expected,” said former Gov. Frank Lowden of Illinois, who arrived in Paris today after a six weeks’ trip on which he has investigated economic and political conditions in various countries.

Mr. and Mrs. Lowden had a family reunion at the Ritz. Their daughters, Frances and Harriett, are studying in Paris. Their son, Pullman, and daughter, Florence, accompanied them from America.

“Put Gold in Circulation.”

“America cannot be a creditor and enjoy all the advantages accruing, without some responsibilities,” Mr. Lowden continued. “We have failed to avail ourselves of our opportunities. We must make more investments abroad. It is one of our responsibilities as a creditor nation.

“During the great cotton slump,

when the acreage produced more than twice the amount of domestic consumption, we did not have foreign enough to ship abroad. Cotton gummed the markets and caused endless trouble. At the same time, thousands of spinners were idle in Europe, while the war weary world waited in rags.

“Americans must learn that the man who first starts that the more we can, the more we expect to get. We must learn that the gold is in gold or goods. There is not enough gold in the world to liquidate all international debts and payment in goods would only flood the American markets and make conditions worse. There is a third way to return to normalcy—circulate the gold we have amassed. We have learned that the gold does not bring us home keeping it in America. We must get it to work and place to employ it the best way without complete changing of the American economic and industrial system, is abroad. We must make extensive capital investments in Europe. Europe Can Use U. S. Surplus.

“It is good to see that THE CHICAGO TRIBUNE realizes this and is extending its services to the Americans on the European continent. The idle gold in our vaults must circulate. This is where it is most needed to start the wheels of world industry turning, is right here where the war’s enormous costs left business paralyzed. When Europe starts to work, there will no longer be any difficulty about surplus raw products in America. Our surplus cotton, wheat, corn, and copper are needed here. There is no money to buy these. We should establish credit, enabling Europe to take our surplus and get down to work. Returns may not be immediate, but will be reaped eventually.”

Gov. Lowden will proceed to Berlin in a fortnight. He will sail for America May 3.

BRIAND SHOWS FRANCE GAINS BY NAVY TREATY

PARIS, April 2.—[By the Associated Press.]—Defending himself and his colleagues to the Washington conference against attack at yesterday’s session of the chamber of deputies, former Premier Briand denied that France’s position with regard to capital ships had been weakened by the conference. He said if the pre-Washington program had been carried out France would have had an advantage of one to six compared with the United States and Great Britain, while under the Washington agreement the proportion was one to two and a half.

The Brazilian campaign has been close and bitter. Senor Pecuna running close with Senor Bernhardes.

The proposal for appointment of a court of honor is the result of the general belief that the result will be too close to trust to the decision of the national congress, where there might be an object for political tactics.

BRAZIL FACES HAYES-TILDEN KIND OF CRISIS

[Chicago Tribune Foreign News Service.]

Buenos Aires, April 2.—The recent presidential elections have developed into a situation similar to the Hayes-Tilden situation. Dr. Nilo Peçuna, one of the candidates, has proposed the appointment of a court of honor, a similar court to that which decided a similar situation in Chile at its last election, resulting in a victory for President Alessandri.

The Brazilian campaign has been close and bitter. Senor Pecuna running close with Senor Bernhardes.

The proposal for appointment of a court of honor is the result of the general belief that the result will be too close to trust to the decision of the national congress, where there might be an object for political tactics.

Henrici's

Only he who serves shall prosper. Only that institution which supplies some plain need in the economy of life may hope to thrive, in a large way, over an extended period.

It must appeal to everyone’s common sense that a restaurant growing in patronage, consistently, year by year, for more than half a century is to be accepted as filling a clear-cut economic want.

Rare and extravagantly priced foods you will not see at Henrici's; nor should you seek there great elaboration in service. But no man, in any part of the world, regardless of his wealth or position, will partake today of food of greater innate quality than that food which you will find in the Henrici menus today and every day.

San Francisco Where East meets West

A breath from the Orient tempts this modern city. Moored to its docks are great ocean liners, tramps, South Sea traders. Along this water front one may hear the crack of the windlass—the guttural notes of a Lascar crew—the bellowing of a “shell-backed” mate—the music of the sea.

In contrast are the gayly lighted thoroughfares—the cafes and theaters—parks and boulevards—the merry whirl of a pleasure loving metropolis.

San Francisco has a mesmeric charm—you long to know it better; and yet no matter how frequently you visit it, the atmosphere of mystery and romance remains.

Follow the Overland Trail to San Francisco—route of Union Pacific trains—see the Rockies, Weber Canyon, Great Salt Lake, High Sierra, American River Canyon, and Sacramento’s “Days of ‘49” celebration, May 23-28. Side trips to Yellowstone and Yosemite National Parks at slight additional cost.

OVERLAND LIMITED

From Chicago (C. & N. W. Terminal) at 8:10 p. m. Sold Pullman train.

PACIFIC LIMITED

From Chicago (C. M. & St. P. Station) at 10:45 a. m. Standard, observation and tourist sleepers, chair cars and diners.

Greatly reduced excursion fares in effect May 15, and War Tax gone.

For reservations, descriptive California booklet and full information, ask Geo. R. Bierman, General Agent, Passenger Dept., Union Pacific System, 1421 Grand Blvd., 58 E. Washington St., Telephone Randolph 6141, Chicago, Ill.

START SMALL'S TRIAL TODAY— IF HE'S READY

Further Delay Depends on
Governor's Stand.

Judge, jury, and prosecution will be ready this morning in the Lake county courthouse at Waukegan, Ill., when the clerk calls: "People of the state of Illinois vs. Len Small, indictment for conspiracy." Whether the trial proceeds depends on whether the defendant, Gov. Small, is ready.

Last week in a speech to his fellow townsmen at Kankakee Gov. Small emphasized the fact that he had demanded immediate trial once. He added that his "pursuers" had purposely delayed his trial in order to postpone his ultimate vindication.

Montgomery Is Ready.

In view of that statement, it is expected by the officers that the defendant will step up to Judge Clinton Edwards and say: "We are ready for trial, your honor." There is nothing but this statement, however, to further indicate that this will be the procedure.

State's Attorney Mortimer of Sangamon county, who will be in charge of the prosecution, said he had received no intimation that the defense would follow with regard to delaying trial or seeking further delay. He is ready, he said. Witnesses have been subpoenaed and the necessary records will be at hand. A venire of jurymen will be there for examination. Judge Edwards' docket has been cleared.

Nothing but his own request for delay and its allowance by Judge Edwards will prevent him from being Gov. Small's "day in court."

Mr. Mortimer said yesterday that Judge Edwards had previously ruled that the coming primary of April 11 is not sufficient excuse for the granting of a continuance. "And I know of no other grounds on which the governor might plead to be excused from going to trial now," he added.

Last Delay Granted March 6.

Gov. Small's last successful plea for more time was granted on March 6 when he made affidavits that it was necessary for him to give his time for the next sixty days to the state's road building program. It is later agreed that thirty days might be sufficient and asked that the date be fixed at April 10, the day before the primary. Judge Edwards moved it forward one week.

This was followed by the governor's trip about the state making speeches the substance of which was "if you vote for legislative candidates pledged not to impeach me I'll build you a nice road." As that idea has been thoroughly disseminated and sufficiently broad cast, it eliminates "roads" as further hindrance to the governor's one demand for immediate trial.

This demand occurred at a time when the governor's attorneys, Jockeying for position, had won a separate trial and the state was put in the po-

MISS CELESTE J. MILLER.

New York, April 2.—Miss Celeste J. Miller of Chicago, wealthy globe trotter, returned on the steamship Lapland today, after completing a six month European tour of 32,000 miles. This will bring her travels in the last year to 100,000 miles. She reached Chicago on Friday. Miss Miller is the daughter of the late Henry F. Miller, one of the pioneer settlers of Illinois, who amassed a fortune in real estate.

State's Attorney Mortimer of Sangamon county, who will be in charge of the prosecution, said he had received no intimation that the defense would follow with regard to delaying trial or seeking further delay. He is ready, he said. Witnesses have been subpoenaed and the necessary records will be at hand. A venire of jurymen will be there for examination. Judge Edwards' docket has been cleared.

Nothing but his own request for delay and its allowance by Judge Edwards will prevent him from being Gov. Small's "day in court."

Mr. Mortimer said yesterday that Judge Edwards had previously ruled that the coming primary of April 11 is not sufficient excuse for the granting of a continuance. "And I know of no other grounds on which the governor might plead to be excused from going to trial now," he added.

Is Exposed.

to the various counties of the state by the last legislature will men are elected who will do his bidding, we say, as before, the price is too high.

"We might far better travel longer on our present roads at the cost of all self-respect and with our nostrils protected from the stench which will be in the air if the Thompson-Lundin-Small program wins."

The Chief Feature.

An editor in the Earville Leader said in part, in commenting on the "road hearing" held at Earville:

"Gov. Small was the chief attraction at the meeting, and from the reports published in the La Salle and other papers the meeting was just what it was stated it would be—a gathering to listen to the governor of Illinois tell the people plainly that if La Salle county sent men to the legislature who would do his bidding he would see that the county got its share of the expenditure of the money voted by the people for permanent roads. If not, they could whistle during his term of office."

"At least two Earville men have said within the last few days that rather than submit to such tactics this section will be willing to 'stay in the mud' for a time yet. When the governor tries to trade hard roads for votes for men whom the people do not want, he will find decided opposition."

A recent editorial in the Lee County Times read, in part:

"We now have the spectacle of a governor, under indictment and dodging trial by every known method and at the same time bellowing his innocence, traveling over the state in the interest of 'good roads,' making this threat: 'Vote for members of the legislature who will support my program or you will not get any hard roads.'

Price Too High.
"What do you think of that? Back alley, peanut politics. If Gov. Small can withhold the money appropriated

**PARAFFIN FEEDS
FIRE; \$1,000,000
LOSS IN AN HOUR**

Monroe, Mich., April 2.—The Wels Fiber Container corporation factory here was destroyed by fire this afternoon with a loss of about \$1,000,000. An hour after the fire was discovered the roof had collapsed. The walls collapsed. Fire originated in the stock room, where an immense store of paraffin covered containers fed the flames.

THE TRIBUNE'S PLATFORM FOR CHICAGO

1—Build the Subway Now.

SMALL AND THOMPSON—TRACTION FOUR FLUSHERS.

The situation in which street car users of Chicago find themselves is the product of the demagogic which they have established and tolerated in city and state offices. If they accept the excuses which Small and Thompson make for their failure, the situation will continue and it will grow worse.

Both Small and Thompson think that there is no intelligence in the citizenship, neither one would have the nerve to obstruct every constructive proposal which arises.

Small has been saying in as many counties of the state as he could reach that he is being persecuted and hounded by the corrupt traction capitalists of Chicago. He says that they and their supporters are taking \$20,000,000 a year in tolls from the people of Chicago in excessive street car fares.

Mr. Small, through the Illinois commerce commission, has the authority to fix the fares for street car transportation. He has not the authority to confiscate property, but he has the power to fix proper fares. He has had that authority for a year and three months.

His commission, after nearly a year of doing nothing, finally did make the political play of fixing the surface fares at 5 cents. The execution of the order was stopped by the United States court in this district, as Small undoubtedly knew it would be stopped.

He goes about the state talking of the corruption of his enemies and of the exploiters of the people, but he has lacked the nerve to say that the United States court is corrupt. That is where his four flushing was stopped, and it was stopped because his commission could not make any showing.

What Thompson and Small are trying to avoid with their noisy chatter is the fact that the responsibility for street car fares and traffic conditions is theirs. They have the power and authority. They talk as if it were elsewhere.

Street car fares can be reduced in two ways. Traffic conditions can be improved in one. Fares can be reduced to 5 cents by reduction in street car wages or by such improvement in operating conditions that operating costs can be reduced without wage reduction. A reduction in wages would give the car user a 5 cent fare, but it would not give him rapid transportation. It would save him some money, but it would not save his time or give him decent service.

The street car companies do not care what wages they pay. They are paid by the people. The people do not object to giving the street car men good wages if they do not have to pay excessive fares. Thompson and Small have not dared tell the car men that they must take a cut and they will not do anything to improve service.

Service can be improved, operating costs decreased, and decent transportation given by building a subway. Thompson opposes that. The car men begin to see what may happen to them as the result of the hypocrisy of the governor and mayor, and they say they will strike before they will take a cut. The people cannot very well strike before they will keep on paying high car fares, but Small and Thompson think they can continue pulling the wool over the people's eyes to keep them from seeing where the real responsibility lies.

Probably a lower rate than now charged can be made to stick, but the state must satisfy the United States court that the rate is not confiscatory and that has not been done as yet. The rate ought to be 5 cents, but it cannot be had without a wage cut or without building a subway. If the car men who fear a cut would use some of their influence to get the obstructionists out of the way of the subway plans, they might help themselves and the city.

The important affairs of a municipal corporation cannot be run forever the way Thompson and Small are trying to run the affairs of Chicago or for the purposes they are running them. Eight years of Thompson's habits is about all any city could stand and it will feel it, and a year of Small is a century of misgovernment.

THE COMMUTER'S TICKET.

In each April we may be sure that winter, from its vagaries will produce a beautiful if ironic fantasy. It is as if the king of winds and storms would say to spring and summer that he, for a moment when he comes to be, is the master artist. You, he says to the queens of the waiting months, may pause a period with your thorn blossoms, with your orchards perfuming the south wind, with your maples in red bud, your green tipped firs, your violets and wake robins.

While you wait with your garlands of anemone and sweet william, with your gardens of larkspur and fox glove, your walls of hollyhocks, with your sweet corn, fields of fox grass, and woods arched and walled in green, I will give you a picture in a simple color which you from your rich palette may equal if you can, as May flows into June and June into July.

Blue clouds roll out of the northeast and the wind comes low over the brown leaves of the oak. The dark sky presses down and the flecks of the master's one color, white, descend in myriads, in whirls and gusts, blinding, stinging and clinging. The dark day grows darker. Folk bend against the wind. The white flecks ride with it. Poor robin is a gull. The meadow lark is hushed in the field. Viburnum and wych hazel bend to the ground. The hawthorn reaches into the storm. Free waters are rolling black in the little streams. Darker and darker the skies, until night, with the wind still driving the snow.

While folk sleep the master artist draws the dark curtains from his picture and a white sun comes up in a fleckless blue sky to light a white enchantment. The pine has raised white spires aloft. The red berries of barberry gleam in the snow.

The wild grape vines which reach into the cot-

tonwood are strands of white. The cottonwood, the willows with their catkins, the oaks with their dead leaves in their arms, the maples with their new born ready for the light, the brush which was waiting for the touch of spring—all are white.

All so white that it is a foliage in which the cardinal flashes and the bluebird sings. It is the dead of winter quick with the life of spring.

The wind is gentle and soft and from the south. The bluejay calls softly from a snow filled elm, the lark sings from a snow filled field, the robin from a snow filled lilac, and grackles from the snow filled oaks. The white of winter is alive with song and junco and singing chickadees in short dashes of flight scatter the white from the burdened evergreen.

Many hundred drops of water begin to fall from the white overhead. The work of the master artist was only for a moment. Spring now may have its April.

A GOOD DEED WELL DONE.

With the ratification of the nine power treaty relating to China, and the Chinese tariff treaty, the United States senate has completed America's part in what is probably the most constructive and successful international conference ever called. The conference was an American suggestion. The invitation to the powers was issued by President Harding. The leadership in the most important features—the four power Pacific treaty and the limitation of armaments—was assumed by the American delegation with startling and remarkable success. The settlement of the most difficult questions—those relating directly to the Far East—was achieved largely through the good offices of the American and British delegations. With the conclusion of the work we have reason to be proud as Americans, and thankful as individuals for peace and safety with justice and honor throughout the world.

President Harding and his delegation—Secretary Hughes, Senator Lodge, Senator Underwood, and Elihu Root—are to be thanked and congratulated for their constructive work in behalf of the United States, and indirectly for the fostering of peace throughout the world. The senate is to be thanked and congratulated for the official approval which makes the work of the delegation effective.

Both Small and Thompson think that there is no intelligence in the citizenship, neither one would have the nerve to obstruct every constructive proposal which arises.

Small has been saying in as many counties of the state as he could reach that he is being persecuted and hounded by the corrupt traction capitalists of Chicago. He says that they and their supporters are taking \$20,000,000 a year in tolls from the people of Chicago in excessive street car fares.

Mr. Small, through the Illinois commerce commission, has the authority to fix the fares for street car transportation. He has not the authority to confiscate property, but he has the power to fix proper fares. He has had that authority for a year and three months.

His commission, after nearly a year of doing nothing, finally did make the political play of fixing the surface fares at 5 cents. The execution of the order was stopped by the United States court in this district, as Small undoubtedly knew it would be stopped.

He goes about the state talking of the corruption of his enemies and of the exploiters of the people, but he has lacked the nerve to say that the United States court is corrupt. That is where his four flushing was stopped, and it was stopped because his commission could not make any showing.

What Thompson and Small are trying to avoid with their noisy chatter is the fact that the responsibility for street car fares and traffic conditions is theirs. They have the power and authority. They talk as if it were elsewhere.

Street car fares can be reduced in two ways. Traffic conditions can be improved in one. Fares can be reduced to 5 cents by reduction in street car wages or by such improvement in operating conditions that operating costs can be reduced without wage reduction. A reduction in wages would give the car user a 5 cent fare, but it would not give him rapid transportation. It would save him some money, but it would not save his time or give him decent service.

The street car companies do not care what wages they pay. They are paid by the people. The people do not object to giving the street car men good wages if they do not have to pay excessive fares. Thompson and Small have not dared tell the car men that they must take a cut and they will not do anything to improve service.

Service can be improved, operating costs decreased, and decent transportation given by building a subway. Thompson opposes that. The car men begin to see what may happen to them as the result of the hypocrisy of the governor and mayor, and they say they will strike before they will take a cut. The people cannot very well strike before they will keep on paying high car fares, but Small and Thompson think they can continue pulling the wool over the people's eyes to keep them from seeing where the real responsibility lies.

Probably a lower rate than now charged can be made to stick, but the state must satisfy the United States court that the rate is not confiscatory and that has not been done as yet. The rate ought to be 5 cents, but it cannot be had without a wage cut or without building a subway. If the car men who fear a cut would use some of their influence to get the obstructionists out of the way of the subway plans, they might help themselves and the city.

The important affairs of a municipal corporation cannot be run forever the way Thompson and Small are trying to run the affairs of Chicago or for the purposes they are running them. Eight years of Thompson's habits is about all any city could stand and it will feel it, and a year of Small is a century of misgovernment.

A START TOWARD HIGHWAY POLICE.

Thirty-two county highway policemen, for the most part overseas war veterans, who will be armed and mounted on motorcycles to patrol the roads of Cook county, have been sworn in as deputy sheriffs. That is a small start toward a state police organization which will make the roads and rural homes and communities of Illinois safe—but it is a start. Thirty-one more men are authorized and will be added to the county force. It is a small number to patrol and protect the hundreds of miles of roads in this county, but it is something.

If the nine men who robbed the home of Arthur W. Cutten near Downers Grove last week should decide to rob another county home, they will not find it quite so easy. A couple of overseas veterans with rifles and motorcycles will make the getaway much more hazardous than did a butler and chauffeur with a shotgun in the family runabout.

No doubt country highwaymen, small town bank robbers, and rural pickup men will continue to operate, and some will escape through the loose net of seventy men scattered over the county. But some will be caught. We will have some practical demonstrations of the value of highway police. Eventually we will obtain an adequate state police force.

This Wake Is Conducted by Harvey T. Woodruff. Help! Help!

Jerry Monroe (the grand old sport) and Don Stickney of Janesville, Wis., kept a saloon on South Clark ('06's), and Jerry owned the great trotting horse Charley Ford—M. T. R., Janesville, Wis.

Rent signs read: "Rooms for rent, inquire within, people turned out for drinking gin"—Ginger.

IN the WAKE of the NEWS

DO YOU REMEMBER WAY BACK WHEN?

FARMERS did all their trading at one general store and paid their bills every six or twelve months, and on such occasions the store-keeper gave the man a new hat and his wife a calico dress?—A. M. O., Michigan City, Ind.

We secured our first jobs through answering Tribune Want Ads?—Dixie, Madrid, Spain.

Epstein's dime museum on Randolph street had a six day go-as-you-please walking match (about 1893), and on the third night two contestants indulged in a go-as-you-please hair pulling match because one thought another was getting more attention from the spectators?—J. O. M., Elgin, Ill.

The gas works were on the northeast corner of Market and Adams ('06's)?—J. R.

If you called a telephone number after midnight the operator would not make the connection until you told her the subscriber's name and address?

The grocer rolled a piece of heavy brown paper into the shape of a cornucopia to hold your purchases?—R. G. F.

Young ladies wore wrist chains made from their sweethearts' hair?—W. E. G.

Grandmother at night set the table for breakfast the next morning, turning the plates upside down and covering the table with cheesecloth?—A. J. P., Michigan City, Ind.

There were signs on all bridges, "\$5.00 Fine for Driving or Riding Over This Bridge Faster Than a Walk?"—G. A. U., Peoria, Ill.

The old frame church at Washington and Sanguino was converted into a candy factory which bore the sign, "Berry's Candy Must Be Good—Made in Chicago?"—J. A. B.

The Borden Milk company had an office in the alley off Madison back of where the Tribune building stands, and you got a dinner pail full of condensed milk for 5 cents ('06's)?—F. M.

We kids went to Artesian ball park to see a real ball game and afterward sneaked into the corner saloon to swipe a few pretzels from the big bowl at the head of the bar?—Samie.

It is not done that may be done, but enough has been accomplished to impress the influence of the Chinese upon world affairs, and to establish a position of leadership which will be effective when we think advisable to use it.

The four power Pacific treaty and the limitation of armaments are, of course, the most important decisions from the standpoint of the United States. They establish peace with honor in the Pacific, remove all probable causes of war, and maintain the sea power of the United States with a saving of hundreds of millions of dollars which otherwise would have been spent in competitive building. The submarine and gas agreements, we believe, are of minor importance. The two Chinese treaties, which complete the work, are not all that an altruist might desire, but they represent a gain over conditions which existed before the conference was called.

The political, economic and social backwardness of China had reduced it to an intolerable condition before the conference. It was exploited by Japan, and its great resources, needed by the world, were virtually cut off from general use. They do not put it on its feet, but they make it possible for it to gain its own feet. That is as much as could be expected from a conference called on the opposite side of the globe and dealing with a nation which has been marked by inefficiency for centuries.

And the butchers gave away the liver?—G. H. C.

Martin Horan ran a stock company at the northwest corner of Halsted and Harrison?—Hal Berr.

The Chicago health department has been trying an antigen for several years. Those in the wholesale department, who know most about it, have used it themselves and have become it to their friends as a cure for pneumonia and for coryza and sinusitis. It is not yet known whether it is safe to be used as a preventive on pneumonia.

Nearly every clinician with a close university or college laboratory connection is making use of some kind of pneumonia antigen. Up at Rochester, Rosenow continues his work along this line.

I was not surprised when I heard Dr. McCormick talk about the health officers of Kentucky, and later those of Indiana, that his health department was supplying vaccine against pneumonia; that he was not certain that it was preventing so many colds, coryza, coughs, influenza, and pneumonia, but that he was certain

The Chicago health department has been trying an antigen for several years. Those in the wholesale department, who know most about it, have used it themselves and have become it to their friends as a cure for pneumonia and for coryza and sinusitis. It is not yet known whether it is safe to be used as a preventive on pneumonia.

FARMERS' TROUBLES.
ago, March 27.—In a protest to the farmers are at a disadvantage because we are too many and too scattered to combine effectively for manipulation of prices. We compete with the cheapest in the world, impracticable for us to materially production. If our land is not used it will grow up to weeds and the loss will be greater than of growing unprofitable crops. We be like the manufacturer and our plants and discharge help our labor is mainly that of our wives, and our children. Most of us do business on borrowed and we are therefore compelled to sell our products to market at the opportunity when, alas, prices are lowest.

are always placed at a disadvantage by legislation. The manufacturer on a tariff can enable him to beat the importers. The important changes in a on the tariff tax are not to the price of the manufacturer. Subsidies and ship subsidies are to certain classes of investors but is no subsidy for us. We pay a share of the cost of these special charges that benefit others and hurt us. For local taxation our property is visible while large amounts of property of those in other occupations are invisible. The foreign markets are cut off by unfortunate financial conditions of in countries and by the tariff law which our senators and congress put up to prevent foreign buyers paying for our agricultural products with the only things they have, manufactured products which farmers would be glad to get at reasonable prices.

On agricultural products we are many of us but they do no farm very good. The few kinds and small quantities of cotton and wool that are produced increase the use and market for some grown product, but the tariff to keep them out to the profit of manufacturer. The tariff on wheat hits Canadian wheat from being shipped through the Great Lakes and drives the Canadian wheat to market just when most wheat is being rushed to market. The result is that the price of all is beaten just when most all of us are obliged to sell. Tariff on agricultural products, of which we always have a surplus, is a humbug.

FRANK HATHORN.

CAN NEVER TELL WHERE A FISH WILL SWIM.
ago, March 29.—I would like to protest against State Game Warden William Stratton dumping 15,000 fish in Lake Michigan as far as Waukegan, which is only nine miles south of the Wisconsin state line. The fish take a notion to swim in Illinois will be supplying Illinois with fish, while we get nothing.

How Can a Manufacturer Effectively Reach His Market Through Advertising?

Curtis Publications Go Far Toward Influencing the Sales of Branded Merchandise to 24,000,000 American Families

Some manufacturers with products of low price and universal appeal sell wide markets, but the portion of those markets which they can directly influence through advertising is limited.

Of those who compose the market for products of low price and universal appeal, some cannot read and others do not receive ideas from the printed page with sufficient impact to lead to buying action.

But those who cannot be directly swayed by advertising are indirectly influenced by the printed page.

Those who do not get ideas from the printed page must of necessity imitate or

ask those who do, or must take what the merchant offers.

The merchant, in turn, is influenced in his selection of merchandise by those patrons who have definite wants.

Five million copies of Curtis Publications directly mould the buying habits of several million families and indirectly influence purchases of many other families.

Five million copies of Curtis Publications go far toward reaching directly and indirectly the American market for branded merchandise, however broad the manufacturer's appeal may be.

The Circulation of Curtis Publications— 5,000,000 Copies

The Saturday Evening Post . . .	2,225,000
The Ladies' Home Journal . . .	1,925,000
The Country Gentleman . . .	850,000
Total Curtis Publications . . .	5,000,000

(February issue)

Curtis circulation covers virtually every city, town and hamlet in the country, and reaches that class in each community which has a determining influence on the sale of merchandise.

NEGRO GUNMAN LEAPS OFF TRAIN; WAS HANDCUFFED

Prisoner Throws Self from Car Window.

William Webb, known to the police as "Chicago's toughest colored gunman," yesterday afternoon dived head foremost out of the window of a train moving thirty miles an hour through Joliet and escaped from a guard who was taking him to the Pontiac reformatory.

The escapee occurred at 4th avenue in Joliet, a half mile from the main passenger station on the Chicago and Alton railroad. The gunman made his leap despite the fact that he was handcuffed. He was believed last night to be hiding in a colored settlement in Joliet and police were combing this section for him.

Throws Himself Out.

Webb was being guarded by W. E. Barrere, superintendent of parole at the reformatory, who came to Chicago to get him. The train had left the Joliet station and was gathering speed when the guard, who was sitting at an open window, jumped out. He flung himself headlong out of the window. Barrere leaped for him, but missed. Then, refusing to take the chance which the colored man had taken, he ordered the train stopped. By the time this was done, Webb was nowhere to be seen.

Barrere went back to the railroad station and spread the news of the escape. All the passengers in Chicago were stopped and searched and squads of police and detectives went into the Joliet "black belt" to search for Webb. Detectives here also were searching the south side for him.

Police Puzzled.

Detectives here were scratching their heads last night. Many of them declared they thought it impossible for a prisoner to escape in such a manner. Chief of Detectives Hughes said he would make an investigation.

EXPRESS TRAIN STRIKES YOUTH CROSSING TRACKS

Alvin H. Culver Jr., 14, son of the prominent attorney of that name, was struck last night by a North Shore express train while he was crossing the tracks at the Main street elevated station. He sustained a compound fracture of the left leg and a sprained right ankle. He was removed to St. Francis' hospital.

The youth, who is a student at New Trier High school, Winnetka, was returning to his home in Wilmette. He had entered the station on the wrong side and attempted to save time by climbing across the track. He saw the train coming, but evidently believed he had time to get to the opposite platform.

IRISH WARTALK DIVIDES CROWD AT N. Y. MEETING

New York, April 2.—[Special.]—Before an audience of 2,000, at a meeting held today in Brooklyn under the auspices of the American Association for the Recognition of the Irish Republic, anti-treaty delegates of the Dail Eireann intimated that if the coming elections were against their faction civil war might break out.

"We will fight this election," said Austin Stack, De Valera's representative. "I won't say what will happen if this election goes against us, but I hope the time may never come when one Irishman will fire on another."

"No, no. There must be no fighting," cried a woman.

"That's just what England wants—for Irishmen to fight one another," shouted a second woman.

"I want to fight," answered the speaker, "but that blow may have to be struck. There is going to be an Irish republic—a whole Irish republic—or nothing." At these words, about half the audience rose and cheered.

The other De Valera delegates who spoke were J. J. O'Kelly and the Rev. Michael O'Flanagan. The name of De Valera was applauded. Michael Col- line name was not mentioned.

SUSPECT IS HELD FOR ATTEMPTING TO LURE GIRL, 10

New York, April 2.—Two serious accidents occurred in the thirteenth annual Targa Florio motor race today. The well known driver, Felice Nazaro, and his mechanician were killed. Another driver, Brilliperti, was badly injured. Nazaro had been in various big national events. In 1906 he took part in the Vanderbilt cup race on Long Island.

RISK LIVES IN A VAIN EFFORT TO SAVE TWO DOGS

Stone Mountain, Ga., April 2.—After their young owners had several times risked death dangling in midair at the end of a 400 foot rope in an effort to rescue two, two foxhounds which had become entangled in a crevice far down the side of Stone Mountain.

They shot today to save them from starvation. Thousands of persons gathered to witness another attempt at rescue save the sacrifice instead.

The dogs went over the edge of the gigantic rock on Thursday while chasing a fox and slipped with but slight injury into a crevice several hundred feet down the side. W. O. and Ronald Venable, owners of the dogs, procured ropes and other equipment and themselves of 100 feet in an effort to reach the crevice. The effort was repeated on Saturday despite a high wind which swung the figures at the end of the long rope to and fro against the face of the rock.

The attempts were abandoned finally and the assistance of an expert marksman from Ft. McPherson was secured.

Poslam drives itching eczema away

Think what it would mean to you to know the wonderful, soothing, cooling Poslam comfort. Why don't you get 50c box and begin treatment at night? You can tell by its very smell that it is going to do good. The first touch usually gives relief, and almost overnight the eruption begins to disappear. Poslam Soap helps this treatment greatly.

At the West North avenue station Hemenway was identified by three other little girls as the man who had tried to lure them. He admitted to Capt. D. W. Wurtzbaugh, present commanding officer, that he was arrested for a similar offense a year ago, but that the charge was dismissed.

Belmont

CONSTRUCTION MEN WILL MEET HOOVER HERE

Presidents and executive officers of national associations in the construction industry will confer with Herbert Hoover, secretary of the department of commerce, on national policies and possible economies at the Drake hotel tonight. Secretary Hoover will arrive in Chicago this morning. He will be

the principal speaker at the Tuesday morning session of the construction conference called by the National Federation of Construction Industries in the Drake hotel today.

"Leaders in the construction industry realize that the country is in a cycle of declining prices," W. S. Hays of Philadelphia, national secretary of the federation, said yesterday. "Competent observers believe that the minimum of the inflation that these declining prices will not soon reach the pre-war level and that the general average of construction costs is destined to remain from 50 to 60 per cent above the level of 1912 and 1914."

The dogs went over the edge of the gigantic rock on Thursday while chasing a fox and slipped with but slight injury into a crevice several hundred feet down the side. W. O. and Ronald Venable, owners of the dogs, procured ropes and other equipment and themselves of 100 feet in an effort to reach the crevice. MAYOR'S DUTY NOT MENTIONED BY WILLIAM

Enforcer Blames and Judges

"Don't blame the police, judges and the church." This was the dictum laid down by the Rev. J. H. Williams Thompson, an enforcement officer, in an address last night at the Brookline Presbyterian Church, Maryland avenue, 112d street.

"The judges met in the La Salle hotel to discuss how the police suppose the judges don't try the cases to bring to them," he said.

"If the eighteenth amendment is upheld it is up to the church people not to go to the crooks will, and the crooks for the candidates who will for their personal designs."

Mr. Williams spoke for an hour. He was seated at a table in the center of the room. At the conclusion of his speech, a number of cards were circulated among those who would be interested in complaints.

Ammonia Fumes Often

MAYOR'S DUTY IS NOT MENTIONED BY WILLIAMSON

Enforcer Blames Church and Judges.

"Don't blame the police, blame the judges and the church."

That was the dictum laid down by the Rev. J. H. Williamson, Mayor Thompson's law enforcement commissioner, in an address last evening at the Brookline Presbyterian church, Maryland avenue and 73d street.

"The judges are in the red room at the Law office, trying to discuss crime, but how can the police suppress crime if the judges don't try the cases the police bring to them?" he said.

"If the eighteenth amendment is violated it is up to the church people to see that conditions are remedied. If the church people don't go to the polls the crooks will, and the crooks will vote for the candidates who will carry out their personal designs."

Mr. Williamson spoke for more than an hour. He was silent as to any duty the mayor has in the matter of law enforcement. At the conclusion of his address cards were circulated for signatures of those who would form a committee in the neighborhood for bringing in complaints.

Ammonia Fumes Out

Many Guests of Hotel

New York, April 2.—(Special.)—

Scores of men and women many in night attire, fled from the upper floors of the Belmont hotel this morning when ammonia fumes began leaking from a fifty ton ammonia apparatus four stories below the street level.

CENTRAL LABOR BODY REAFFIRMS 'ONE UNION' STAND

Acts After Protest by Electrical Groups.

Its resolution favoring the one big union plan or the amalgamation of all unions was reaffirmed yesterday by the Chicago Federation of Labor at its regular meeting in Musicians' hall, 175 West Washington street.

The action was taken following the reading of resolutions from Electrical Workers, the Amalgamated, 13th and 9, rebuking the federation and the withdrawal of its delegates unless a conservative policy was followed by the central labor body. The communications from the electricians also asserted that the purpose of the central labor body should be to assist the affiliated unions and not attempt to dictate the formation of industrial unions.

"On Union" Resolution.

The resolution, adopted by the federation at the last meeting, which binds the protests from the union electric workers reads in part:

"Whereas, the employers throughout the country have joined together bound together by a solidarity of interest and organization which leaves no room for divided action or dissensions, and moreover they are supported by the government and courts and press in any union smashing undertaking, therefore be it

"Resolved, That we, the Chicago Federation of Labor, in regular meeting, call upon the American Federation of Labor to take the necessary action toward bringing about the required solidarity within the ranks of the telegraphers' union."

Nelson Denounces Action.

Oscar Nelson, vice president of the federation, led the conservative group of union delegates who maintain that the resolution means the one big union plan for Chicago workers.

"This is in direct violation of the

of Labor, along the lines of which the present trade union movement is functioning," he said.

President Fitzpatrick blamed the *TRAIBUNE* for the confusion among the delegates who didn't clearly understand the wording of the resolution, saying it was a plot on the part of the *TRAIBUNE* to discredit the federation and its officials.

Delegate Lichenstein of the painters' union disagreed with Fitzpatrick. He said when he voted for the resolution it was with the full understanding that it meant the "O. B. U."

TROLLEY UNION OPPOSES FARE PLAN OF CITY

Says Workers Must Not
Bear Reduction.

BY OSCAR HEWITT.
Union officials claim that the attitude of the city administration on street car fares is an attempt to cause the discharge of 2,000 street car men, to increase the workday of 1,650 others from eight to fourteen hours, to increase the workday of 10,320 others from eight to ten hours, and to reduce the wages of all.

"We are automatically protest the position of the city representatives at the hearing (before the Illinois commerce commission) in attempting to place the burden of lower fare rates upon the railway employees," said William Quinlan, president of the union, yesterday.

"It is difficult to understand why representatives of the city would not take from the car men and their families a wage rate that is less than that paid numbers of crafts in the city's employ," continued Quinlan. "Any attempt to carry out proposals of the city's representatives will force the employees into a position of defending themselves."

Union officials who compiled a list of union wives who obtain larger rates of compensation from the city than the car men receive. A street car conductor receives 75 cents an hour for the first three months, 78 cents an hour for the next nine months, and 80 cents an hour thereafter. Night car men receive 82 cents an hour. Street car union officials point out that the following union men get \$1.25 an hour from the city:

Bricklayer, Stone cutter, Carpenter, Cement finisher, Painter, Hooper, Plasterer, Lumber worker, Sheet metal worker, Blacksmith, Electrical mechanic, Wagon maker, Steamfitter, Plumber, Harness maker, Holster engineer, Steam roller.

Are Paid Well.

Moving picture operators and sign painters get \$1.50 an hour from the city; trench and grade engineers and pattern makers, \$1.50 an hour; machinery movers, \$1.15 an hour; engineers, \$1.13 an hour; brass molders, \$1.12 1/4 an hour; linemen, \$1.10 an hour; pressmen, \$1.08 an hour; marine engineers and pilots, \$1.07 1/4 an hour; composers receive \$1.00 an hour; plaster's laborers, 94 cents an hour; asphalt plant workers, 90 cents; construction, building and tunnel laborers, 87 1/2 cents; drivers, 84 cents; motor truck drivers, 88 cents; and tug men and deck hands, 81 cents.

In their formal protest to the Illinois

commerce commission the union chiefs said:

"Rents, taxes, and fuel costs in Chicago are continually in the ascendency, with no sign of abatement. These and other costs do not justify any decrease in the car employes' wage rates. Their present labor conditions are less favorable than the labor conditions of the average worker, and particularly the crafts in the municipal employ."

There are several union labor men in

the city council, but they have made no objection to the attitude of the city's representatives as interpreted by the union, carmen's officials; although on Oct. 14, 1912, and again on May 20, 1918, the city council unanimously adopted resolutions asking an increase in wages for the street car employes. No council meeting is scheduled before the order of the Illinois commerce commission on fares is expected, but the union labor aldermen have the privilege of calling a special meeting of the council.

Springfield Republican

Cuts Price to One Cent

Springfield, Mass., April 2.—The Springfield Republican announced that, beginning tomorrow, its price would be reduced from 3 cents to 1 cent a copy. The Springfield Union will reduce the price of its daily issue from 2 cents to 1 cent. The Evening Union also will be cut to 1 cent.

Holds nearly twice the ink of the ordinary

FROM a tray of assorted pens 62 men in 100 selected the new Parker Duofold first of all when we asked them to pick out the most appealing pen.

"Handsome than gold!" was the verdict of many who saw this large, graceful barrel in Chinese-red with smart black-tipped ends, and neat gold pocket-clip.

This classic Pen was created by Geo. S. Parker, inventor of the leak-proof "Lucky Curve." It took him 30 years to perfect it, but it took America only six months to make the Duofold the leading seller at hundreds of prominent counters.

Its native Iridium point is as smooth and life-enduring as a hard jewel bearing, and is guaranteed 25 years for wear and mechanical perfection. Step up to the first pen counter and give your hand the pleasant sensation of the Duofold's business-like feel. Take one away for 30 Days' Free Trial.

If your dealer's supply is not in, give him your order subject to your approval after trial. Or write or call us, giving your dealer's name.

Springfield Republican

Cuts Price to One Cent

Springfield, Mass., April 2.—The Springfield Republican announced that, beginning tomorrow, its price would be reduced from 3 cents to 1 cent a copy. The Springfield Union will reduce the price of its daily issue from 2 cents to 1 cent. The Evening Union also will be cut to 1 cent.

QUALITY

THE reputation and prestige of *The STORE for MEN* are built upon the sale of quality merchandise.

There are many different grades of worthy merchandise, at varying prices and suited to varying needs. Each represents an economical purchase at its price and for its purpose. These varying grades of quality merchandise all find a place here.

There are other grades which do not meet a standard of quality, but are made only to sell at a price. They represent a standard of cheapness—not of economy. Such merchandise finds no place here. Men buy here safely and economically, because, while the range of price is wide, at every price the value is attractive.

BONUS BILL
BEAT TARIFF
TEST IN SENATE

McCumber Promises
Rush It Along

BY A STAFF CORRESPONDENT
Washington, D. C., April 3.—Senator McCumber, chairman of the senate finance committee, stated tonight that the bonus bill will be taken up for consideration by the committee as soon as the tariff bill is reported to the senate. This measure must wait until it is possible that the bonus bill will be passed by the senate before the tariff bill is debated. Senator [Ind.] is in favor of rushing the bill to the senate within the next week and then allowing the committee which measure it will first.

Foes Certain to Lead
Anti-bonus senators would immediately consider the bill, but will be defeated, for not many more than a score of Mr. Watson.

Chamber of the United States made its recent referendum on the bill is contained in a letter which senator has received from John as Taylor, vice chairman of the legislative committee of the Legion.

"The chamber," the letter said, "does not count the votes cast in the bill passed by the lower house before the senate, but votes only upon a purely hypothetical proposition of the chamber's voting, which it had already twice previously as the police chamber."

Says Cards Were Stacked
Thus the cards were stacked in the final vote represented only one cent of the voting strength measured. In spite of this vote counted, on the four propositions submitted, showed 4,115 votes of the four propositions and against them.

"Twenty-five per cent of the men who came from New York, and Washington."

BONUS BILL MAY BEAT TARIFF TO TEST IN SENATE

McCumber Promises to Rush It Along.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., April 2.—[Special]—Senator McCumber, (N. D.), chairman of the Senate finance committee, stated tonight that the soldier bonus bill will be taken up for consideration by the committee as soon as the tariff bill is reported to the Senate.

This means next week.

It is possible that the bonus bill will be passed by the Senate before the tariff bill is debated. Senator Watson (Ind.) is in favor of rushing the bonus bill to the Senate within the next two weeks and then allowing the Senate to decide which measure it will consider first.

Foes Certain to Lose.

Anti-bonus senators would fight for immediate consideration of the tariff bill but will be defeated, for they do not number more than a score, according to Mr. Watson.

Charge that the Chamber of Commerce of the United States manipulated its recent referendum on the bonus are contained in a letter which every senator has received from John Thomas Taylor, vice chairman of the legislative committee of the American Legion.

"The chamber," the letter says, "did not count the votes cast upon the fivefold bill passed by the lower house and before the Senate, but counted votes only upon a purely hypothetical proposition of the chamber's own devising, which it had already adopted twice previously as the policy of the chamber.

Says Cards Were Stacked.

"These cards were stacked and the final vote represented only 55 per cent of the voting strength of the Senate membership. In spite of this the total vote counted, on the four propositions submitted, showed 4,118 votes in favor of the four propositions and 2,657 against them."

"Twenty-five per cent of the votes opposed to cash or certificate payments came from New York, Chicago, and Washington."

DR. SUN PLEDGES REUNITED CHINA BY END OF YEAR

Wires Tribune Japan Menace Grows.

BY DR. SUN YAT SEN, President of the Republic of China. [Chicago Tribune Foreign News Service.]

[Copyright: 1922: By The Chicago Tribune.]

KWEILIN, Kwangsi Provinces, China, April 2.—As my expedition

starts northward to redeem China in behalf of the people, I have received by telegraph from Charles Dailey in Peking a request for a statement for The Tribune regarding the position in which China is left as a result of the armament reduction conference in Washington and the possibility of the early restoration of an orderly government of the republic.

I answer with optimism that China will be reunited this year. Her government, instead of being a creature of the militarists, will derive its power and authority from the will of the people, as expressed in our constitution, which we are fighting to uphold. Civil supremacy must be established over military authority to insure peaceful development and progress in China.

Japan as Powerful.

The Washington conference has not materially affected China's international

The first successful month of the

HARMONY CAFETERIA PROFIT-SHARING PLAN—

If you haven't yet started saving HARMONY COUPONS Start Now!!!

Double Coupons for every guest all day today

THE profit-sharing plan of the Harmony Cafeteria has met with a tremendous response from the thousands of Chicagoans who have learned the economy of dining at the Harmony Cafeteria every day—and saving 5%. In appreciation of the splendid patronage that has been given us during the first month of the new profit-sharing plan

Today We Celebrate the Success of the Harmony Plan by Giving DOUBLE COUPONS to Every Customer

FOR EXAMPLE: If your check is 42c—you get 84c in coupons—this day only. If you have not yet begun to save coupons, today is a wonderful day to start—double action, double the usual incentive to save.

Harmony Coupons Are Valuable —SAVE THEM

WHEN you have \$50.00 worth of Harmony coupons take them to the nearest Harmony Cafeteria between 8 and 10 a. m. or 3 and 5 p. m. and receive in exchange a \$2.50 coupon book. This coupon book is good for meals at any Harmony Cafeteria from 7 a. m. to 7:30 p. m.

"Eat the Harmony Way"

—and Save 5% a Day

THERE is a reason for the fine food, delicious cookery and low prices that you find at the Harmony Cafeteria. Our big buying power makes possible the exercise of extraordinary

economies. The saving is passed on to our customers through the profit-sharing plan—5% a day to every guest—every day. Join the crowds who are dining daily at the Harmony Cafeteria.

"FIRST in quality—FIRST in economy
—FIRST to share profits with patrons"

EARTH'S NEED IS FRATERNITY, SAYS NOTED PREACHER

Urges Churches Quit Squabbling.

It might have been called Sunday Evening club night at Orchestra hall last evening. Clifford W. Eliot, president, who has been on a six weeks' sojourn in California, presided. An outburst of applause greeted his appearance.

Dr. Samuel A. Eliot, president of the American Unitarian society, Boston, and son of Charles W. Eliot, president emeritus of Harvard university, took the record and ideals of the Sunday Evening club in his text and spoke on "An Adventure in Goodwill."

Earth Needs Fraternity.

"I hope," he said, "the spirit of toleration manifested at the Sunday Evening club may spread everywhere. A divided church cannot very well plead for a united world. The greatest need of this distracted earth is fraternity. Bigotry always means isolation. How dull a family would be if the children all acted alike. The pipe organ is one, but the pipes differ in tone while together they make music."

"I'm not interested in what any denomination is willing to surrender for the sake of unity, but in how much it can contribute to unity. It is not a question of compromise, but of com-

BIGAMIST HAD STRANGE IDEAS, SISTER CLAIMS

Arthur Lynn Rankel, who has three wives and who is held in the county jail on a bigamy charge, has had several years concerning marriage, relatives declared yesterday.

Mrs. C. M. Hall, 950 West 77th street, his sister, said:

"His first wife, Mrs. Albert Hoffman of Milwaukee, was old enough to be his mother. She had a daughter older than Arthur, Florence Avery, wife No. 2, whom Arthur very well, is also older than Arthur. I do not know Miss Connor, the third wife in all three hours' deliberations.

"I understand," continued the sister, "that after the second marriage when Arthur felt angry at his wife he would tell her he had another wife. He acted strangely about his marriages."

Preachiness, not of conquest, but of concord.

The Roman Catholic church for centuries was the preserver of learning. The Protestant church has been the champion of civil and religious liberty. Yet the world refuses to be Romanized or Protestantized. You can't Episcopalianize Chicago and you can't

Episcopalianize the world.

The old theological war cries are not even in the vocabulary of the present generation. Arminians and Calvinists once believed they were doing God's service when they killed each other. Let each man according to his own belief cultivate his own garden in his own yard, but let each enjoy his neighbor's flowers that spring from these several gardens. We do not divide over the beatitudes, the golden rule or the Lord's prayer."

FREE EX-DEPUTY OF PAY ROLL RAID PLOT DOWNSTATE

\$95,000 Holdup Charges

Still to Be Tried.

Taylorville, Ill., April 2.—Former Deputy Sheriff Jerome Lockard, his brother Jesse, and "Stuttering Jimmy" Lotsey, on trial for conspiracy to rob the \$94,000 pay roll of the Peabody mines at Kincade, were acquitted by the jury this afternoon, after twenty-three hours' deliberations.

Charges of robbery, assault and receipt of stolen property are still held against the trio. Separate verdicts were returned in the conspiratorial case which was selected for first trial.

Jerome Lockard was the deputy from the sheriff's office of Christian County, assigned to guard the pay roll messenger, Frank Jones, on the day of the robbery, Aug. 13, 1921.

The prosecution charged that the deputy plotted with his brother, Lotsey, and other members of the alleged gang to rob the pay roll, the deputy agreeing to act as the victim of a fake assault by the others.

"Peg" Lockard, a cousin of the sheriff on trial, was shot and killed December 1, after an alleged confession last December. His bullet-riddled body was found near Edwardsburg on the night of Dec. 15.

One of the last witnesses at the trial was John Lockard, 72, father of the slain "Peg." He told of secret meetings in a shack before and after the holdup between "Peg," the deputy sheriff and Lotsey.

Trial of the Lockard brothers and "Stuttering Jimmie" on the remaining charges has not been set.

FARMERS' MARKET IS SHOWING A HEALTHIER TONE

Washington, D. C., April 2.—[Special.]—Marked improvement in the condition of the agricultural industry and a better outlook for business generally is indicated by the April 1 reports received from the agencies of the War Finance corporation throughout the country.

"Live stock producers and farmers generally are reported much more confident because of improved market and financial conditions," said Acting Director Davis. "A strong demand for cattle has developed, with buyers operating actively in the markets. Sheep and lamb markets are continued strong. Increased values for hogs, corn, and wheat at country points in

the corn belt have encouraged the farmers and they are entering into their spring work with more zest."

"Good rainfall conditions for the summer are also reported in the eastern states, and the drought has been broken in the southwestern wheat region."

The growing feeling that it is possible to market sugar, corn, rice, and cotton on a paying basis has given a healthful tone to business.

"Financial conditions have greatly improved as a result both of improved market and better arrangements for financing agricultural and live stock operations."

"Bank deposits have increased in many agricultural communities, and the country banks are generally in a stronger position than they have been for a long time."

"Best of all, confidence is returning, and with it the trend of business is toward a restoration of more normal conditions all along the line."

Time Advertising to Farm Prosperity!

What do ten and eleven-dollar hogs mean to your business, your dealers, your salesmen? Have you translated the significance of the new farmer buying power and attitude into terms of sales for you?

Merchandising to the farmer, selling to his dealers, will be renewed with great activity this year.

In tapping such an opportunity, the particular experience of this advertising agency will prove of greatest service. Dealing in a large way with every worth-while farm publication gives us a knowledge of value and a grasp of methods of merchandising to rural communities that can be put to most effective use for you. We welcome an opportunity of explaining our methods.

NEW ROAD T
LEVY NOT NEE
LETTER CHA

Efficiency Bureau
Power Abuse

The bureau of public mailed a letter yesterday to board protesting against a new tax of \$4,402,717 for highway. The bureau says that the tax is "indefensible and that it should be abandoned by the county that the conduct of the county board charges that the county by the tax "abuses its discretion."

The letter, signed by Harry E. director, says the bureau has supported in good roads, has supported issues for their construction, reflected upon the commendable county superintendent ways, but does criticize the conduct of the county board.

Plan Higher Taxes

"Tax bills are much higher than ever before," states the letter, referring to the tax per cent this year. "Does your state make them still higher?"

"One of the principal items threatened increase is the \$4,402,717.

"This new tax is a radical departure from the present program and policy of the county board," the statement says. "The statement says that the new general corporation tax being collected, total and for principal and interest, \$1,916,127.

The statement continues:

<p

NEW ROAD TAX LEVY NOT NEEDED, LETTER CHARGES

Efficiency Bureau Says Power Abused.

The bureau of public efficiency mailed a letter yesterday to the county board protesting against a proposed new tax of \$4,402,717 for highways.

The bureau says that levying of this tax is "indefensible and the plan to levy it should be abandoned." The bureau charged that the county board by the levy "abuses its power and discretion."

The letter, signed by Harris S. Keeler, attorney, says the bureau believes in good roads, has supported bonds issued for their construction, does not object upon the commendable work of the county superintendent of highways, but does criticize the policy and conduct of the county board.

Plan Higher Taxes.

"Tax bills are much higher this year than ever before," starts the letter, referring to the tax boost of 42 per cent this year. "But you plan to make them still higher next year. One of the principal items of the threatened increase is the new tax of \$4,402,717."

"This new tax is a radical, and for the taxpayers an exceedingly expensive, departure from the previous road program and policy of the county."

The statement says that county taxes for general corporate purposes, now being collected, total \$8,626,019, and from principal and interest on bonds, \$1,081,577.

The statement continues:

"You now propose to levy and collect for roads alone in a single year \$4,402,717—approximately half as much as the levy for all these other purposes combined. The amount you now propose to raise by taxation in a single year for road construction and maintenance is two-thirds the total amount expended in this purpose during the last eight years, including money de-

ived from the sale of bonds."

New Power Given.

The power to levy the new tax of

ROCK ISLAND HEAD SEES FURTHER CUT IN RAILROAD RATES

Declaring that "most of the talk about overcapitalization of railroads is the wildest kind of exaggeration," J. E. Gorman, president of the Chicago, Rock Island and Pacific railroad, said yesterday that "there is no doubt that rates must be reduced" but the reduction must come through a decrease in labor and operating costs.

"The public believes, I suspect, that speaking of railroads collectively, they are greatly overcapitalized," he said. "Therefore the people believe the rates they are required to pay are far greater than the real value of the roads warrants. However, railroad managers have always known that, generally speaking, the valuation of the roads was greater than their capitalization."

When the reductions in rates are made, he said, they will bear little relation to the valuation of the properties.

The statement further reads:

"The manner in which these tax increases laws were jammed through the general assembly was thoroughly reprehensible. But the county board now proposes to outdo the legislature in proposing to collect \$4,402,717 from the taxpayers the board is taking advantage of the maximum rate authorized, although the impossibility of spending more than \$2,500,000 is officially admitted."

Rate Not Lowered.

Last year the townships maintained the unpaved highways. For this purpose the townships levied in 1921 \$575,000 for the maintenance of 1,500 miles of road. The bureau asserts that

"You now propose to levy and collect for roads alone in a single year \$4,402,717—approximately half as much as the levy for all these other purposes combined. The amount you now propose to raise by taxation in a single year for road construction and maintenance is two-thirds the total amount expended in this purpose during the last eight years, including money de-

ived from the sale of bonds."

New Power Given.

The power to levy the new tax of

the township tax rates for this purpose has not been decreased and that the new county road tax is additional to maintain a certain mileage. The bureau asserts that the plan works out in this way: "The proposition to spend \$1,000,000 for maintenance this year is only a proposition to spend that amount on a stretch of about 200 miles of unpaved road, most of which is likely to be paved within the next two or three years."

NAVAL AVIATION RULES TO MAKE FLIGHTS SAFER

Planes Must Stay Within Radio Call.

Washington, D. C., April 2.—That naval aviation regulations governing naval air craft in flight are devised to cut the risk to machines and fliers to the lowest point possible was asserted today in an explanation of naval practices made public by Secretary Denby. The regulations include provisions to enable the planes to keep constantly in touch by radio with ships or shore stations along the route, insuring prompt assistance in case of disaster, and minimizing the danger of "losing" a plane and its crew at sea.

Planes to Go in Pairs.

Where there is any possibility of a forced landing between the start and the end of the flight two planes must be sent together. In case one is forced down it is assumed that the other will be able to hover above and report the situation and position to summon relief, or, in case of urgent need, report and then make a landing itself to aid the disabled machine.

As a further precaution, position reports must be sent by the machines in flight at regular intervals while making the passage. Usually this will be at half hour intervals.

Rescue Parties Kept Ready.

Should some extraordinary accident force down both planes simultaneously and silence their radio calls rescue parties can be rushed to the place of last position report to begin the search with reasonable hope of picking up the aviators in a comparatively short distance from that spot.

A final precaution all naval planes are equipped with rocket pistols to fire color signals at night to guide rescuers to their aid.

New System for Testing Power.

A system for testing the lifting power of aircraft wings of new design in actual flight was announced today by the national advisory committee on aeronautics, and soon will be tried out in practice at the Langley field laboratory.

It is designed to displace the existing method of testing in wind tunnels, which the committee announcement said had never been satisfactory.

RYAN'S SQUAD LEADS MARCH POLICE LIST

Lieut. John Ryan and his squad led in the police efficiency list posted for March, it was announced yesterday. The squad made 653 points, recovering stolen property valued at \$14,899 and making forty-nine arrests. Sergts. Scully, O'Neill, and Knowles are on the squad.

Lieut. John Norton and his squad, composed of Sergts. Haskas, Connally, and Finn, made second place with 463 points. They recovered stolen property valued at \$5,200 and made 107 arrests. Lieut. John Egan and Sergts. Moriarty, O'Farrell, and Tapscott made third place, recovering stolen property valued at \$6,000 and having ninety-seven arrests.

Sergts. Noonan and Trant led the individual teams. Sergt. Nagle and Flaherty of the pawnshop detail were first in their division.

PRINTER HELD FOR EMBEZZLING.
Knoxville, Tenn., April 2.—Lottis Jones, a linotype operator, has been arrested at Williamsburg, Ky., charged with embezzling \$3,000 from Ray E. Bentley post, American Legion, of Cincinnati.

FOOD LESSON NO. 15

A Pint of Milk To Every Pound

For every pound of GOOD LUCK Spread-for-Bread a pint of full-cream milk is used. The milk alone used for every pound has a caloric food value of five eggs—

—or of four large chops, or half-a-loaf of bread.

Thousands of gallons of this nourishing milk are used daily in churning GOOD LUCK.

Full-cream milk only is used—pure and sweet—fresh from the herds on over 300 inspected dairy farms in the Elgin dairy district of Illinois.

Jelke GOOD LUCK is wholesome and nutritious. It contains heat, energy, growth and repair food elements. Children thrive upon it; as do also adults.

It is at once a wholesome food delicacy, adding delicious flavor to the foods upon which it is spread; and also it is the woman's way of saving. Use—

THREE LADS SET OUT FOR TEXAS; 1 COMES HOME

Eight Other Children Object of Search.

Two 10 year old schoolboys "caught" spring fever Saturday and set out for

Texas to "punch" cattle. One of the boys returned home yesterday, after he had traveled as far as Blue Island. The other lad, with a 17 year old companion, is still "en route." Parents and police are searching for him.

Le Roy Robert Sall is the son of Jack Sall, a steamfitter living at 642 West 61st street. His companion and playmate is Charles Knittle, living at 5921 Farnell avenue. The two boys attend the same school.

They Meet "Jack."

Friday afternoon, while on their way home from

"Jack." The latter lives in a garage over a cigar store at 63d and Halsted streets.

The trio spent several hours together, telling tales of the great southwest that is "infested with buffaloes."

On Saturday the three met in "Jack's" room above the cigar store and again talked of Texas.

Finally a young

Sall and Knittle proposed going there.

"Jack" agreed to be leader of the expedition. The two younger boys stole home, got up two blankets, and with the older boy started south.

Shortly after 4 o'clock yesterday young Sall arrived back home. He fell into his mother's arms and sobbed out his story.

Sept in Box Car.

"We got out to Beverly Hills," he said, "a little tired but went on to Washington Heights. There we slept in a box car until it began to rain and then sneaked into the station and slept under the benches.

The next morning we got up and started again. We begged some food and a man gave us some piecemeal. We bought candy. Out on the ad about a mile, "Jack" got some bad foot hurt and I couldn't walk fast enough. I told him I was through.

Tribune Growth Breaks All Circulation Records

SEVENTY-FIVE years ago plans were being considered for the inauguration of The Chicago Tribune. At that time its circulation was nothing.

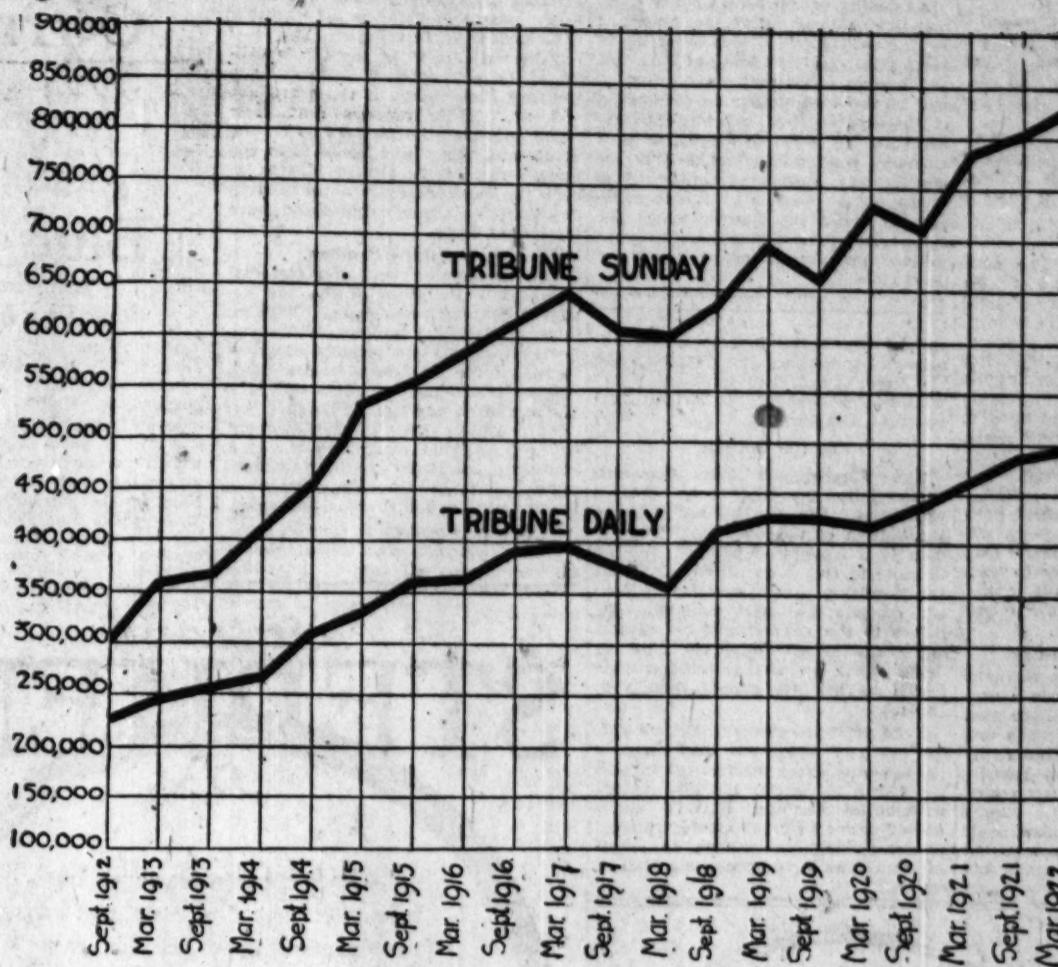

THREE-QUARTERS of a century of constant growth finds The Tribune with the greatest circulation in its history. *It has the largest morning daily circulation of any newspaper in America, with an average for six months of almost 500,000.*

The Sunday Tribune has maintained an average for six months of more than 825,000, and has far more circulation in Chicago and suburbs than any other Chicago newspaper, morning, evening or Sunday, as well as the greatest total circulation.

FOR ten years The Tribune has submitted every six months a statement of its circulation to the United States Government. The current statement, covering the period from October 1, 1921, to March 31, 1922, shows an increase of 126 per cent Daily, and 172 per cent Sunday since 1912.

Statements to the Government Show Tribune's Steady Circulation Growth

Average for Six Months Ending	Daily Exclusive of Sunday	Sunday Only
Sept. 30, 1912.....	220,500	304,325
March 31, 1913.....	245,449	363,119
Sept. 30, 1913.....	253,212	366,918
March 31, 1914.....	261,278	406,556
Sept. 30, 1914.....	303,316	459,728
March 31, 1915.....	326,897	534,848
Sept. 30, 1915.....	354,520	558,396
March 31, 1916.....	359,651	585,934
Sept. 30, 1916.....	392,483	619,023
March 31, 1917.....	395,442	645,612
Sept. 30, 1917.....	381,675	614,418
March 31, 1918.....	367,798	606,111
Sept. 30, 1918.....	410,818	633,315
March 31, 1919.....	424,026	693,895
Sept. 30, 1919.....	424,588	666,496
March 31, 1920.....	420,703	732,606
Sept. 30, 1920.....	437,158	711,254
March 31, 1921.....	460,739	787,952
Sept. 30, 1921.....	483,272	801,881
March 31, 1922.....	499,725	827,028

The graph above shows the consistent circulation progress of The Tribune since the first government statement in 1912.

The Chicago Tribune's twentieth sworn statement to the United States government covering circulation, ownership, management, etc., for the Six Months from October 1, 1921 to March 31, 1922, inclusive.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912

Of.....THE CHICAGO TRIBUNE.....published.....DAILY AND SUNDAY.....
at.....CHICAGO, ILLINOIS.....for.....April 1,.....1922.....
State of.....ILLINOIS.....County of.....COOK.....

Patterson.....who, having been duly sworn according to law, deposes and says that he is one of the.....editors.....of the.....Chicago Tribune.....and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations printed on the reverse of this form to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business manager are:

Publisher.....The Tribune Company.....Name of Postoffice Address.....
Editors.....Robert R. McCormick and Joseph M. Patterson.....7 So. Dearborn St., Chicago, Ill.
Managing Editor.....E. S. Beck.....7 So. Dearborn St., Chicago, Ill.
Business Manager.....S. E. Thompson.....7 So. Dearborn St., Chicago, Ill.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.)

THE TRIBUNE COMPANY

Estate of Joseph Medill.....7 South Dearborn St., Chicago, Ill.
Alfred Cowles.....140 W. Van Buren St., Chicago, Ill.
Martha Root White.....115 East 55th St., New York, N. Y.
Amelia Elizabeth White.....115 East 55th St., New York, N. Y.
Abby White Howells.....50 East 58th St., New York, N. Y.
Wm. Bross Lloyd.....30 North Dearborn St., Chicago, Ill.
Henry D. Lloyd.....488 Commonwealth Av., Boston, Mass.
Demarest Lloyd.....24 Mount Vernon St., Boston, Mass.
Wm. Bross Lloyd, Henry D. Lloyd and John Bross Lloyd, Trustees.....30 North Dearborn St., Chicago, Ill.

The Trustees of the estate of Joseph Medill are his two daughters, Elinor Medill Patterson and Katherine Medill McCormick, and Wm. G. Beale.

The beneficiaries are Katherine Medill McCormick and Elinor Medill Patterson.

Alfred Cowles is Trustee for Wm. H. Cowles, Sarah Frances Cowles Stewart and Alfred Cowles.

Wm. Bross Lloyd, Henry D. Lloyd, and John Bross Lloyd, Trustees, are Trustees for John Bross Lloyd.

In regard to Section 2 of the law. The Tribune does not accept payment for any editorial or other reading matter printed as news.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state).

There are no bonds, mortgages, or other securities outstanding against The Tribune Company.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee, or in any other fiduciary capacity, the name of the person or persons for whom such trustee is acting, and also the name and address of such trustee, as far as known, and the amount of stock and securities held by him; and that the statement preceding this paragraph is made under penalty of perjury, and belief, as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication, sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is: Daily (excl. Sunday).....499,725.....Sunday (only).....827,028.....(This information is required from daily publications only.)

(Signed).....Joseph M. Patterson.....

Sworn to and subscribed before me this.....first.....day of.....April, 1922.

(Seal) Signed.....Thos. A. Krippner, Notary Public....

BRITISH REGIME HITS EAST INDIAN IN POCKETBOOK

Young Englishmen Get Many Times His Salary.

BY JOHN CLAYTON, *Chicago Tribune* First News Service.

BOMBAY, March 4.—(By Mail)—What does the Hindu want? What influences lead him to accept jail sentences rather than submit to British authority?

An English civilian, high placed in a large British corporation, opened the civil list and pointed out the salaries of Englishmen and natives in various administrative departments.

Difference in Salaries.

"There is your answer," he said. "The head of the department of agriculture receives a salary of \$2,000 rupees (\$350 to \$400) a month."

He is a young man, 25 to 30 years of age. His Indian assistant, who has a large share of the responsibility, receives 200 to 600 rupees (\$65 to \$198) per month. This Indian has been in the service for twenty to thirty years, and he feels that his pay is out of all proportion to that of his chief. The dogma is that two men are greater than one.

The native could not accept complete control. He could not get efficient production out of the native staff without a sahib in authority to back him up. But he won't admit it, and he is dissatisfied. The same is true in private corporations.

Call Problem Financial One.

The whole question is a financial one. This Hindu who practices non-cooperation does so in the hope that it will bring him better returns and a larger percentage of profit. He wants a British army to remain, and a British viceroy to govern him, but he wants to rule a little empire of his own in the various departments of state. He believes he can do the job as well as any Englishman; but he knows that a native government

LEGION NOTES

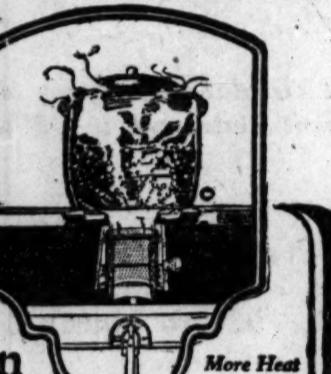

Mike Donlin, baseball player and actor, will be the guest of Theodore Roosevelt, Jr., No. 522 American Legion, at the regular monthly luncheon of the post at the Hotel Sherman at 12:15 p. m. today. Final plans will be announced at the luncheon for the all star performance to be staged at the Auditorium theater April 19, 20, and 21 by Theodore Roosevelt post and the Gold Star Mothers, for the benefit of disabled and distressed ex-servicemen. A meeting of the Gold Star Mothers will be held Tuesday evening in Room 399 Masonic temple, which will also be attended by the Gold Star Sisters and members of Theodore Roosevelt post.

A meeting of the Cook County Commanders' association of the American Legion will be held this evening at 8 o'clock, and other matters coming up will be the continuance or disbanding of the organization. All present commanders are urged to attend, as it is said that those who advocate that the association be disbanded are those who would not be eligible to future membership under the charter which the state department stands ready to grant in that past commanders would not be eligible.

To the Bottom.

The Englishman has diagnosed superficially the ills which created the闹. But he has not gone to the bottom of the question. The Indian is a conquered subject, and he is made to feel it on all sides. What the Englishman calls overplay of British officials he calls robbery. He points to the suffering of his people, and to the immense amounts of money being made by British corporations which he believes should remain in India.

Even after 165 years of British rule the spark of patriotism that burns in the breast of every man burns in him. He wants to handle his own affairs without interference. Part of him is willing to see a British viceroy remain, to accept dominion status, but most of him wants independence, and a republic.

To all women
"from Missouri"

We like to meet the "show-me" kind of women, because they know what they want when they see it.

This is how we explain to them the Florence Oil Cook Stove:

Go into any store where Florence Oil Cook Stoves are sold. There you will find one filled with oil, ready for use.

Try it yourself.

You will be delighted with its beauty at first sight.

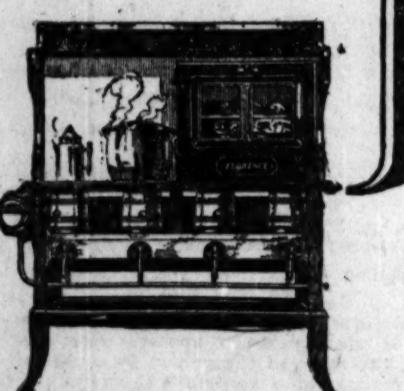

When you light the burner and see the smokeless blue flame, no one will have to explain its convenience.

The picture of a cool kitchen, time-saving, fuel-saving, comes into your mind at once.

And oil is the cheapest fuel you can use.

STOMACH UPSET?

Get at the Real Cause—Take
"Dr. Edwards' Olive Tablets"

That's what thousands are doing now. Instead of taking tonics, or trying to patch up a temporary condition, they're attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets cleanse the liver in a purifying, healing way.

When the liver and bowels are performing their natural functions, away goes the constipation, stomach trouble, have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, and a general sense of uneasiness with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a natural vegetable compound, flavored with olive oil. You will know them by their olive color. They do the work without giving cramps or spasms.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

OLIVE TABLET CO.
Columbus, Ohio

Headaches

Are Usually Due
to Constipation

When you are constipated, there is not enough lubricant produced by your system to keep the food waste soft. Doctors prescribe Nujol because its action is so close to this natural lubricant.

Nujol is a lubricant—not a medicine or laxative—so cannot grip. Try it today.

ARGENTINA TRIES TO AVERT VAST FARMER STRIKE

BY JOHN WHITE.

[Chicago Tribune Foreign News Service.]

Buenos Aires, April 2.—President Iroigoyen has sent proposals into the country by representatives of the interior department in an attempt to prevent the threatened farm strike. The president promises the renting farmers that the executive will make every possible effort to get pending legislation through the legislature.

More than 50,000 farmers, it is estimated, have threatened to discontinue working their lands, if rents are not reduced. These farmers rent their farms much as the farmers do on the middle west of the United States, except the landlord system prevails in Argentina on a much vaster and more entrenched scale.

Several Bills Pending.

The bills, which are now pending, have been introduced by the legislature.

Several projects are pending designed to reduce the rent on the farm lands or the proportion of products the farmers must pay the landlords.

Agitation in favor of abandonment of the farms is an outgrowth of a long

continued complaint that the farmers are unable to pay the high rents while products have their present low value.

Invited Farmers to Conference.

Señor Irigoyen, after dispatching a representative, will try to hold the

discontents in check. He also has invited the farmers' organizations to send a delegation to Buenos Aires to confer with the president and to inform him how the government can best assist them to realize their aspirations.

Since wheat and cattle are the principal exports, a strike undoubtedly would produce a critical situation, if long continued.

Corns?

—just
say

Blue-jay
to your druggist
Stops Pain Instantly

The simplest way to end a corn is

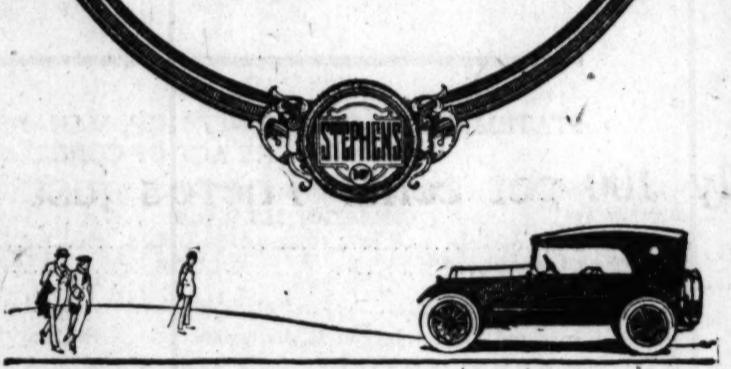

Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it) and an extra thin plaster. Use whichever form you prefer. plaster or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

Salient STEPHENS Six

"My Stephens Six is my business partner. The Stephens has proved itself more reliable, more durable, more powerful, more free from trouble than any other I've ever owned."

This owner, one of thousands, adds further proof to the fact that the longer a man drives the Stephens Six, the greater grows his esteem for its economy and dependability.

"I have driven a Stephens car for the past two years and can confidently say that I have given better service than any car I have driven during the past ten years and I have used a number of them," says N. O. Shively of Chicago, Illinois.

BUSINESS *is always 100%*

[It's the SHRINKAGE that hurts the timid man]

Geared up away beyond normal speed the unthinking man is sure to say: "Business is fine—100 per cent."

When Old Man Average takes a hand he cuts volume all to pieces. Then the unthinking man wails: "Business is rotten—I'm headed for the rocks."

And he cuts down on advertising, if he doesn't quit altogether.

All the time, business is exactly 100 per cent. There's just so much of it, and no more. It may shrink badly, but what there is of it is 100 per cent.

When there are fewer buyers there are fewer sales, so when business shrinks and the thoughtless man rails at fate, here is what the long-headed business thinker straightway does:

He CAREFULLY PRUNES overhead, but keeps his organization strong. NEVER CRIPPLES IT.

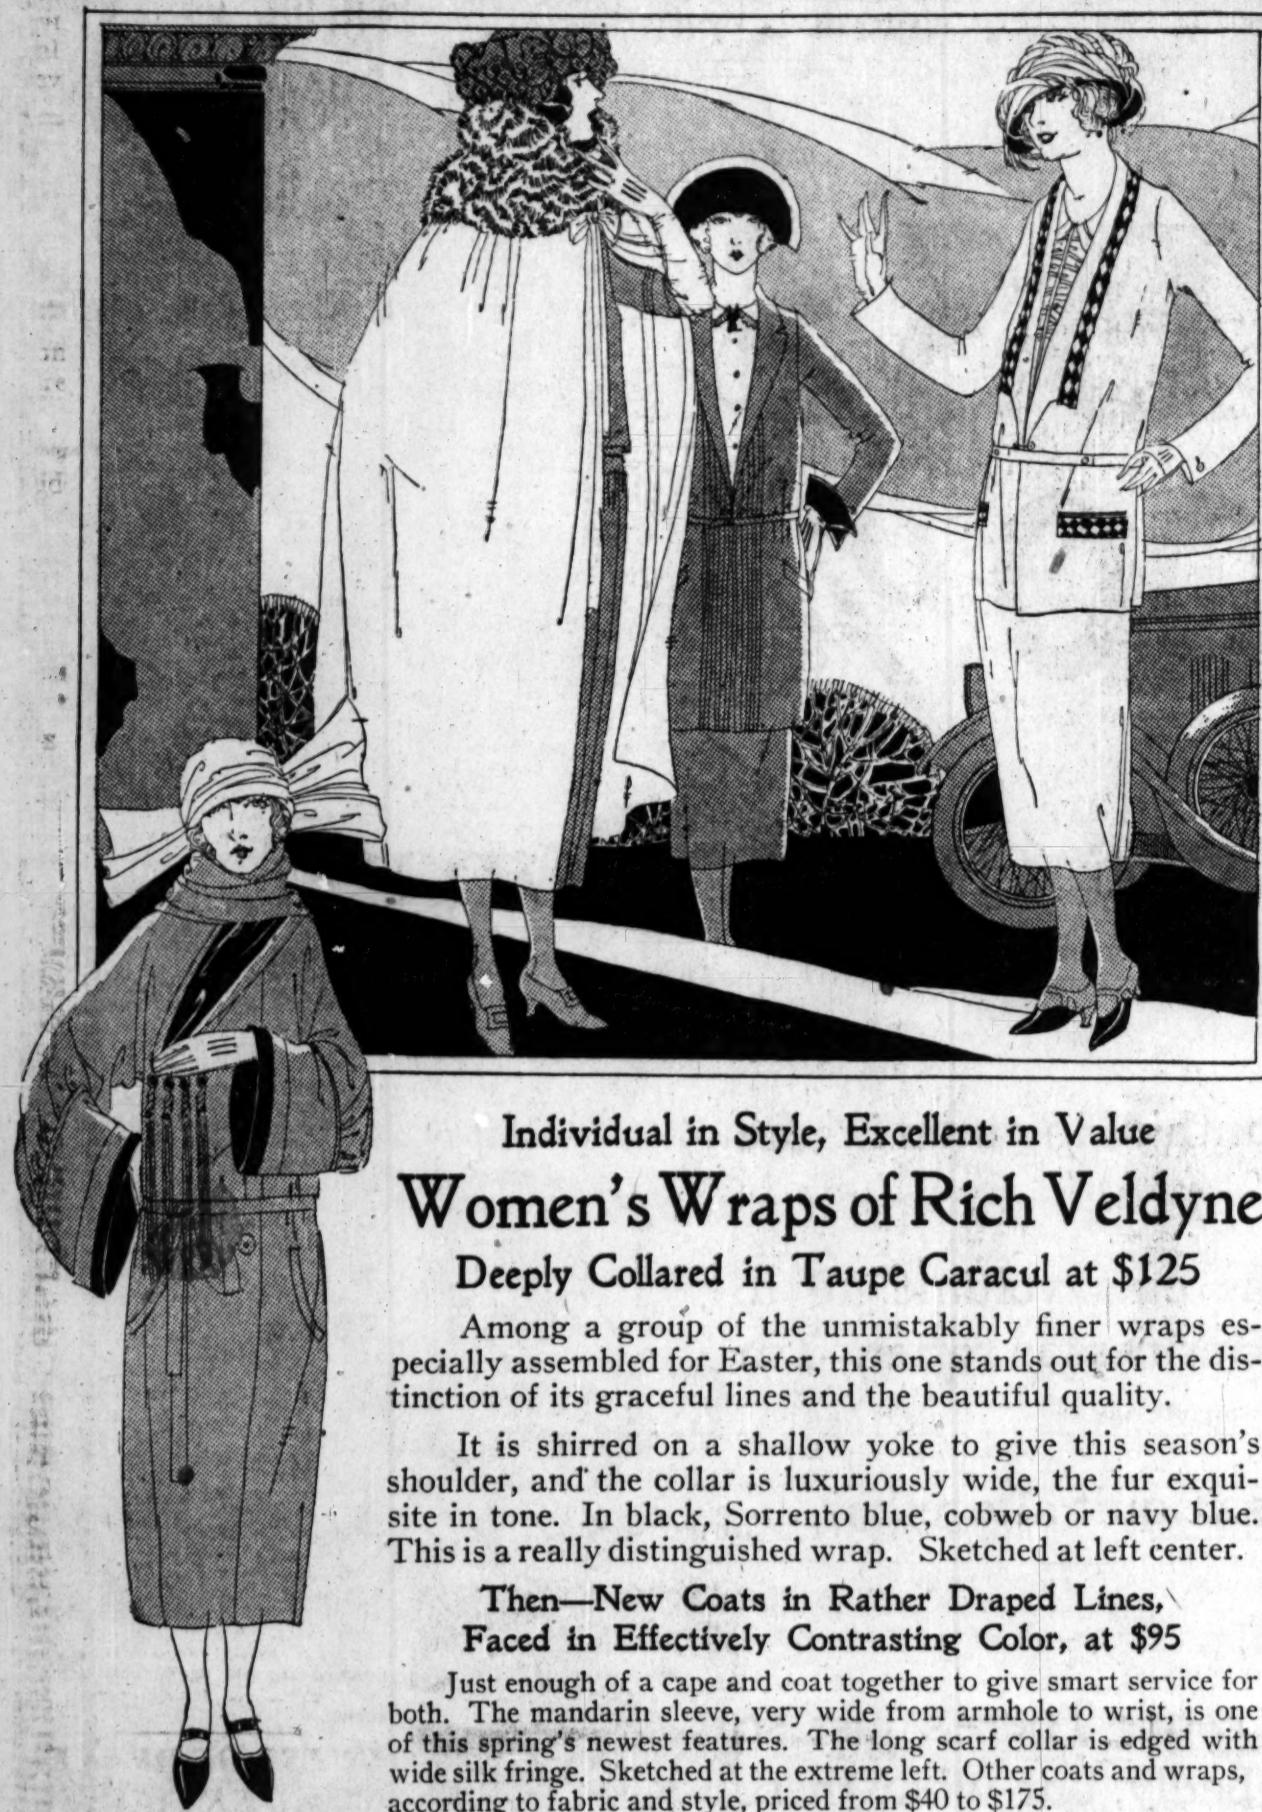

HE KEEPS RIGHT ON ADVERTISING to make sure that he gets his full share of all the business that's abroad. AND HE GETS IT.

In getting his share, he gets the other fellow's share, too, and while his business stays firm, that of his visionless, non-advertising competitor continues to weaken.

By going after business *hard* in 1921, the CHICAGO EVENING AMERICAN gained over a half-million lines over its own greatest year of

1920. In 1921 every one of its evening competitors LOST over 500,000 lines. *Consistent advertising* played a strong part in the result.

CARSON PIRIE SCOTT AND COMPANY

Individual in Style, Excellent in Value

Women's Wraps of Rich Veldyne

Deeply Collared in Taupe Caracul at \$125

Among a group of the unmistakably finer wraps especially assembled for Easter, this one stands out for the distinction of its graceful lines and the beautiful quality.

It is shirred on a shallow yoke to give this season's shoulder, and the collar is luxuriously wide, the fur exquisite in tone. In black, Sorrento blue, cobweb or navy blue. This is a really distinguished wrap. Sketched at left center.

Then—New Coats in Rather Draped Lines, Faced in Effectively Contrasting Color, at \$95

Just enough of a cape and coat together to give smart service for both. The mandarin sleeve, very wide from armhole to wrist, is one of this spring's newest features. The long scarf collar is edged with wide silk fringe. Sketched at the extreme left. Other coats and wraps, according to fabric and style, priced from \$40 to \$175.

Suits with Tucked Panels, \$65

Tucks—the accenting note on many smart suits this spring—are cleverly used in this to bring out the slender, straight lines. The material is a particularly fine weave. The coat, the new, longer length. Sketched right center.

Fourth Floor, North.

Featuring One of Many Rich Dress Fabrics Much Favored

This Fine Wool Duvetyn Priced \$5 Yard

The approach of Easter makes the selection now of materials for one's spring suit or wrap of immediate importance. The wool duvetyn featured is beautifully adapted in its soft, velvety texture to the fashioning of graceful capes. In the colors especially in demand. \$5 yard.

"Trelaine," a knit fabric for sports apparel, in a number of attractive mixtures. 54 inches wide, interestingly priced at \$5.50 yard.

Monotone Cloth in Gray and Tan Stripes and Checks for Sports Apparel, 54-Inch Width, \$5 Yard

Second Floor, North.

Silk Undergarments Are Lovely As Fine Quality and Artistic Designs Can Make Them

That's undoubtedly the reason for the charm of undergarments here.

And Easter planning brings off just such dainty undergarments as these. In countless variety of exquisite styles—remarkably low in pricing, too.

Crepe de Chine Night-Dresses At \$3.95

These Night-dresses have tailored band-tops and shoulder straps. The crepe de Chine is of the quality which gives excellent service.

In pastel tints. Sketched at the left, priced \$3.95. Envelope chemise to match, sketched at the center, is priced specially, \$2.65.

Lacy Vest Underbodices, Remarkably Priced, \$2.95

A tailored envelope chemise to be had in flesh, pink, white, orchid, and light blue, with a motif of real Irish lace. Sketched at the right, \$2.65.

Fresh new assortments constantly arrive, bringing hand-made undergarments from the Philippines and exquisite hand-made lingerie made in this country.

Third Floor, North.

An Importation Of Mahal Oriental Rugs

Rugs that combine exceptional excellence of design and color with the firm even weave that insures really exceptional wearing quality.

Regular Room Size, 9 x 12 Feet,

\$295

The large number of rugs in this importation includes an unusual variety of patterns, so that there is more-than-ordinary scope for choice.

The pricing, moderate for rugs of this sort, makes possible the purchase of a floor covering of enduring beauty.

Seventh Floor, North.

Daintily Ruffled Curtains

\$1.95 Pair

There's a spring-like freshness in the crisp folds of these white spot-voile curtains. Finished with ruffles at sides and bottom. Patterned in spots of two sizes. Priced \$1.95 pair.

300 pairs of ruffled splash voile curtains with 8-inch flounce. Curtain and flounce edged with full ruffle. With pair of tie-backs, \$3.45 pair.

300 pairs of sheer splash voile curtains with 8-inch flounce. Curtain and flounce edged with full ruffle. With pair of tie-backs, \$3.45 pair.

Ruffled Grenadine Curtains, Cross-Bar and Spot Pattern, Priced \$4.75 Pair.

Sixth Floor, North.

300 pairs of sheer splash voile curtains with 8-inch flounce. Curtain and flounce edged with full ruffle. With pair of tie-backs, \$3.45 pair.

Ruffled Grenadine Curtains, Cross-Bar and Spot Pattern, Priced \$4.75 Pair.

Sixth Floor, North.

Strap Slippers

Gray Suede with Patent Leather

Footwear that meets the discriminating taste of the critic in mode, just as it does that of the connoisseur of shoe quality and craftsmanship.

*The Simplicity of Line
All-Essential to Smartness
Relieved by Clever Details*

The quarters and straps as well as the covered heel are of gray suede, and the vamps of patent leather.

The soles are square-edged and hand-turned. The heels of wood in "Cuban" style. Sketched here above.

\$11 Pair

Third Floor, South.

A Very Special Selling Brings 5,000 Pieces of Beautiful Rainbow-hued Glassware Low Priced at \$1 Each

A reflection of spring is in this rainbow-tinted glassware. The decorative shapes bring a charming color note into the room. The very moderate pricing makes it possible to choose, within a small expenditure, several of these lovely bits of glassware for Easter decoration or as gifts.

Flower and Fruit Bowls with Black Stands Candy Jars Compotes Wafer Plates Other Decorative Pieces

The really unusual charm of this glassware and its low pricing make this selling of decided interest. The shapes are varied and of more than ordinary grace, for each piece is designed with an apparent artistry. Several are sketched above. At \$1 each.

Though the number of pieces in this sale is large, each is so attractive and the price so remarkably low—early selection is advised.

Fifth Floor, North.

Silks—That Mean Successful Modes

Special Displays Which Take Note of Easter

Choosing must be decisive now, if the new frock or suit is to be ready for Easter. Here are assortments so carefully collected that all hazard is eliminated in quick selection.

Gros de Londres and Chiffon Taffetas at \$2.50 Yard

All-silk, exceptionally fine in quality, 36 inches wide, in plain colors and in changeable effects. Exceptional value.

Brocaded satin crepes and brocaded satins, 40 inches wide, in many different patterns, priced at \$3.95 yard.

New Crepe Moire, \$4.50 and \$5.65 Yard

All-silk. New this spring, meeting with success. In many different colors. 40-inch.

Crepe Knit, Creponge and Velette, \$4 and \$4.50

These new fabrics (36-inch) may be chosen in all the most desired colors. Their great demand at this time makes these assortments at these special prices very important. Priced according to quality, \$4 and \$4.50 yard.

36-Inch All-Silk Chiffon Taffetas, Plain Colors and Changeable Effects, Very Specially Priced, \$1.50 Yard.

Second Floor, North.

From Flanders for Frocks Homespun Linen \$1.25 Yard

In Chicago, Only Here, Primrose House Toiletries

Exquisite toilet preparations are these, whose daintiness and excellence of quality are known to most women.

Creams, powders, lotions, and many other toilet articles are here in complete variety.

First Floor, South.

Easter Planning Brings the Newest and Most Charming Hats for Spring

The climax of springtime smartness is in these hats—the most successful modes in their most artistic version. Here are hats in the rich "wood" shades, the exquisite hydangea colors, and the Paris-favored beige.

Especially interesting are the new Burmese turbans—a fashion just launched—also hats in lighter colors—turquoise, white. And never was more color and "verve" in millinery than in the new sports hats here now. Prices vary in these groups from \$20 to \$50.

A Special Group at \$22.50

Fifth Floor, South.

A Timely Selling of Housewares Features

500 Cake Closets at \$1.45 Each

A variety of cooking utensils, unusually low priced, makes possible a complete selection at real savings.

The cake closets have two shelves, sliding door, and are finished in white enamel. Excellent value at \$1.45.

7-piece glass pantry sets with aluminum covers. These are especially convenient in small kitchens. Special at 95c set.

200 bread boxes of heavy tin, in white enamel. Size 13 1/4 x 9 1/4 x 10 1/4 inches. Features at \$2 each.

12-piece cereal sets, consisting of 6 large and 6 small canisters in a quaint Dutch pattern. \$2.75 set.

Glass Mixing Bowl Sets, 5-, 7-, and 8-inch Sizes, 50c Set. Glass Cooking Ware, Priced According to Kind, 15c to 75c Each. 7-Piece Porcelain Spice Sets With Rack, Priced at \$1.45 Set.

Sixth Floor, South.

For the Really Safe Storage of Furs

Our cold, dry-air, scientifically constructed vaults mean safety for your furs—safety from destruction by moths, or loss through fire or theft.

A telephone call or a post-card will bring our immediate response.

It's Important to Have Remodeling and Repairing Done Now

For there are special prices prevailing upon this work which mean appreciable savings. And, too, the very fine workmanship which comes with more time.

Fourth Floor, East.

There's a Gay Little Pathway to Easter In Babies' Own Section

Here—white frocks tipped with colors flutter their dainty ribbons and ruffles. There—jolly-looking little suits call to small laddies. Again—coats and hats—every sort imaginable—all so smart. And everywhere pricings as moderate as in these

Special Groups of Coats for Babies

At \$8.95, \$10.75, \$12.75 and \$23.50

At \$10.75—a smart little top-coat with stitched bands on collar, sleeve and pockets. The hat to match, \$3.95.

At \$12.75—a coat of camel's hair cloth in the smartest of spring styles. The hat is \$5.

Each coat and hat is represented in the sketch below.

DECLARE HASS INELIGIBLE FOR MAROON TRACK

The University of Chicago track team has lost a sure point getter for the outdoor season in R. G. Hass. He has been made ineligible for public appearance because of lack of proficiency in physical culture and studies in another course. He would have been eligible for competition in the spring quarter, having then completed three quarters at the university.

Hass was considered as a point winner in the 100 yard dash and broad jump. He had won this winter and last spring. At the First Regiment armory meet he won the 40 yard dash and 40 yard low hurdles against a field of good men. Last spring at the A. A. U. tryouts, he broad jumped 22 feet 7 inches.

This narrows the field of Maroon point winners to two or three men. Fyott is figured as a first rater against any competition in the quarter mile, Redmon in the hammer throw, and C. Brickman in the high hurdles.

With only twenty-seven days left before the Drake relays and the weather not altogether favorable for outdoor work, the relay men will have to put in long hours to get in shape.

Coch Stagg plans to get them right at work tomorrow morning on the outdoor track if it is firm enough, and plans to have workouts twice a day, so that men who have afternoon classes may work in the morning.

A.A.U. COMMITTEE TO INVESTIGATE CUTBILL CHARGES

Boston, Mass., April 2.—William C. Trout, president of the Amateur Athlete union, has instructed the local registration committee to investigate charges that Harold C. Cutbill, the "Flying Parson" of the Boston A. A., accepted money for running at the meet of the Hartford, Conn., Industrial Athletic league on Feb. 28. Cutbill denies the charge.

President Trout expressed confidence that the charges would be refuted. Jack Ryer, coach of the B. A. A., said he was certain that merely technicalities were involved.

28 PREP FIVES IN MAROON MEET

Twenty-eight quintets from all parts of the country will compete in the fourth annual national interscholastic basketball tournament at the University of Chicago on Wednesday, Thursday, Friday, and Saturday. The field includes sectional and state champions and is the largest ever staged by the Maroon school.

Center Raids, last year's winner, will again be among the late entries are Fort Scott High, Kansas state champions; Grand Rapids, Michigan champs, and Kalamazoo, runners up in the Michigan tournament, which closed on Saturday at Ann Arbor.

Drawings of games will be made to-morrow. Coach A. A. Stagg has announced that A. F. Hammesfaher and H. G. Immenhausen will act as officials, with Dr. Moulder and "Fritz" Crisler of the Maroons as assistants.

Business Keeps Australian Net Stars from Cup Match

LONDON, April 2.—A dispute from Melbourne says several of Australia's best tennis players who were expected to compete in the Davis cup matches will be prevented by business considerations. The attendance of Gerald L. Patterson, former world's champion, is impossible for this reason, it is stated, while J. O. Anderson is not certain he can make the trip.

AM. GIANTS, 8; CUBAN STARS, 4.

New Orleans, April 2.—American Giants of Chicago won from Cuban Stars here, 8 to 4. Score:

American Giants.....000 002 420 814 2

Cuban Stars.....000 200 000 000 0

Batteries—Rile and Dixon: Bouda and Mc-

BETTERS DASH RECORD

CHARLES PADDOCK.

(Underwood & Underwood (C.)

HONOLULU, T. H., April 2.—Charles Paddock, California sprint wonder, yesterday lowered his previous record for 120 yards by one-fifth second, running the distance in :11 2-5, and continued to the 125 yard mark in :12. The marks were made by continuing after a 100 yard dash, which he won in :09 3-5. Paddock is competing against local athletes in a series of exhibition races.

Beamer of Hilo was second in the 100 and was timed at :09 4-5. Paddock also won a 220 yard dash, his time being :22. The races will be brought to the attention of the A. A. U. for consideration as records.

SEMI-FINALS FOR BATTERY FIVES

The semi-finals of the 122d field artillery basketball tournament will be played tonight at the East Chicago avenue armory. Battery D will play E in the opener, and Battery B will play Headquarters battery in the final. The losers will play tomorrow night for third place, and the winners Wednesday night for the title.

As an added attraction, games have been arranged between four of the best girl teams in the city for these nights.

LINCOLN PARK TRAP TEAM KEEPS TROPHY

Lincoln Park's diamond trophy trap shooting team yesterday defended its title against a picked team of shooters at the Lincoln park traps yesterday. The club team scored 463 targets out of a possible 500, while the challengers broke 455.

Tom Graham was high gun in class A in the challenge trophy class event, breaking 49 of 50 targets. In class B, C. A. Arnes broke 49; in class C, W. F. May broke 49; and in class D, C. G. Jewell broke 49. A. J. Usher won the doubles, cracking 46 clays of the twenty-five pair. Leading scores:

PARCAUT, MEYERS ROUGH AND READY FOR GO TONIGHT

MAT MATCHES

MR. BOB: I wanted to do somebody that story over—I mean one you put in your column ago today by the bird, Fisherman, but Dick is a palomine, too. You tell me what really happened to you when you got something on this other chaser.

I gotta get started on what I'm writing about—not being or anything, but some day me and my son sit down with our mother, the mahogany and a nice glass of this, we're history. So let go, you want to be sure we're on some asbestos car mafia.

Listen, Bob: if you ever meet Berg, ask him about his shooting grounds, which is probably when he pays 3½ percent.

I don't know anything that's no good. I guess he tried it on a piece of cloth, and still looks like a sieve.

* * *

We will have to wait for that good recipe you wrote about a week ago. I'm not going to take any on a good hard rain, as I'm used with no scales nor a pair.

MIKE [E. M. S.]

John Meyers vs. Ralph Parcaut, twelve rounds at 160 pounds.

Jack Kilson vs. Lou Talaber, six rounds at 160 pounds.

Tom Kowalewicz, four rounds at 160 pounds.

Edgar vs. Carl Farness, four rounds at 160 pounds.

St. Louis, 8:15 o'clock.

BY WALTER ECKERSALL.

Unless all indications go astray, the championship wrestling match between

Johnny Meyers, claimant of the middleweight title, and Challenger Ralph Parcaut, of Spencer, Ind., to be held at the Coliseum tonight, should be the best in Chicago in recent years.

There is such confidence in each camp that nothing but a bitterly fought struggle will result. Both are trained to heights of physical perfection. Unlike some former contests in which Meyers has taken part, tonight's contest should be free from rough tactics.

Both Strong Wrestlers.

The champion is known as a clean wrestler, but can hold his own in pinching or gouging if his opponents start the rough stuff. But this time the wrestlers have been warned by the city athletic commission, and Ald. Oscar Olsen, chairman of the commission, will see that the ride.

The offensive and defensive ability of both men is well known. Each can use dangerous locks from defensive as well as offensive positions.

The double wrist lock probably will be the principal offensive weapon of both. This hold will be employed to lead others expected to bring about a decided advantage. This means action.

Weigh In Today.

They must weigh 160 pounds or less when they step on the scales at 3 o'clock. They will wrestle twelve rounds of ten minutes each, to a fall or decision.

Marines club of Chicago will stand by to root for Parcaut, as well as delegations from Iowa.

Meyers will not lack for backing. Johnny is a great favorite in Chicago, and the Polish contingent will be out in large numbers to encourage their countryman. Johnny is favorite in the betting.

Kilson to Meet Talaber.

John Kilson, the rough Greek from Rockford, Va., and Lou Talaber, west middleweight, will meet in the six round semi-windup. They also will scale 160 pounds at 3 o'clock.

A substitution has been made in the opening bout. Bobby Byland of Milwaukee, who was to meet the Belgian Duke of Dubuque, Ia., strained some ligaments in his match last week with Engel. He has been advised not to appear by attending physicians. Promoter Mullen has substituted Carl Urness, a product of University of Illinois, who gave Lou Talaber two interesting contests.

The first bout will go on promptly at 3 o'clock. Tickets are on sale at 12 North Dearborn street and 153 North Clark street. Doors open at 7.

(Pictures on back page.)

MANDELL TO OPEN DRILL TODAY FOR GO WITH SPENCER

Sammy Mandell, Rockford bantam, who will box Georgia Spencer of Buffalo in the main event on the Commode Friday night, will resume training at the Arcade today. Mandell has been working with his brother Joe in Rockford for ten days. Spencer will be town on Wednesday. Battling Williams and Johnny (Buck) O'Brien will ride punches in the semi-windup.

Tom Andrews, Milwaukee promoter, will be in town to see the work of the Shadde recently, and Paul Moran will be the principals in one-half of the double bill—Tony Dennis of Milwaukee and Tommy O'Brien of Los Angeles will clash in the other half.

Jack Blackburn and Calvin Respass are listed for the windup of the ring show at 7 p.m. on Thursday night. Blackburn is attempting comeback and if he beats Respass will challenge some of the other midweights.

Frank Moran, local heavyweight, under the management of Leo Doff, will trade punches with Gauk Wiggins at Indianapolis on Thursday night.

STATE AMATEUR 18.2 CUE TOURNEY OPENS TONIGHT

The Illinois State Billiard association will start its 18.2 balline tournament for the amateurs tonight. Play will extend through Monday, Tuesday, and Wednesday night, and all games will be played in the Mussey and Foley rooms. The thirty entrants hailing from Chicago and several other leading cities of the state will report at 7:45 a.m. at 7:45 o'clock tonight to receive their final instructions from T. B. Weddell, secretary of the Illinois association.

TETZIE, HURT IN RING BOUT, DIES

Eugene, Ore., April 2.—George Tetzie of Brownsville, Ore., died early this morning of injuries received in a boxing bout with Carl Miller of Eugene last night. Tetzie, lost consciousness soon after the referee had ended the bout to save him further punishment and never regained it. Physicians said a blood vessel in his brain had been ruptured. Tetzie leaves a widow.

Connecticut Board Bars

Boxer Hart and Manager

Hartford, Conn., April 2.—Johnny Hart, middleweight boxer of Brooklyn, and his manager, Moice Levy of New York, have been indefinitely suspended by the Connecticut boxing commission.

The charge was one of impersonating "Timmy" Herman, Pacific coast boxer, in a bout here Jan. 31.

Lady Astor Will Address League of Women Voters May 15

Elaborate plans are being made for Lady Astor's visit to Chicago the middle of May. She will speak under the auspices of the Illinois League of Women Voters Monday afternoon, May 15, in Orchestra hall. Mrs. James W. Morrison, second vice president and advisory member of the national board of the league, is chairman of the committee on arrangements. Among others on the committee are Mrs. John Borden, Mrs. Watson Blair, Mrs. J. M. Patterson, Mrs. George A. McKinlock, Mrs. Rockefeller McCormick, Mrs. Joseph G. Cole, Mrs. McCormick, Mrs. Charles W. Dempster, Mrs. John Keeley, Mrs. James Keeley, Mrs. Russell Tyson, Mrs. Henry W. Cheney, Mrs. Edwin W. Bailey, and Mrs. Ignace Reis.

An opportunity to buy the smartest of small spring hats and at the same time help the Illinois Children's Home and Aid society will be afforded those who have made their homes in the residence at 1344 Astor street, under the auspices of the clothes committee of the society. Sport hats will be a specialty. The sale will open at 10 o'clock and continue until 5. Among those who will assist Mrs. Hibbard are Mrs. Kenneth Sawyer Goodman, chairman of the committee; Miss Frances Robbins, Miss Isabelle Robbins, Mrs. James L. Houghtaling Jr., Mrs. Channing McCormick, Mrs. Lawrence Armour, Mrs. Clifford Rodman, Mrs. William E. Shuler, Mrs. Knutson Ames Jr. and Mrs. Lawrence M. Viles.

Mr. Joseph G. Coleman will open his residence at 712 Rush street this afternoon from 1 to 5 o'clock for a luncheon for the benefit of the Woman's Aid society of the Passavant Memorial hospital. Mrs. Coleman is president of the society. Assisting her will be Miss Ethel Wrenn, Miss Margaret Williamson, Mrs. George Carpenter, Mrs. Ford R. Carter, Mrs. Edward R. Fifield, Mrs. Charles E. Frankenthal, Mrs. Thomas Henage, Mrs. Rudolph W. Henage, Mrs. George Higgins, Jr., Mrs. John Hibbard, Mrs. J. Mitchell Hoyt, Mrs. Frank G. Jones, Mrs. Edward A. Leight, Mrs. John F. Jelke, Mrs. Clive Runnells, Mrs. Frank H. Scott, Mrs. Caswell A. Sharp, Mrs. Charles S. Peterson and Mrs. O. J. Waters.

The eleventh topic of the Katherine Lock current topics will be given today at 2:30 o'clock at the Drake. The subject will be "Democracy, Economic and Social."

Miss Francis Kelly will give the final lecture in a series arranged for the benefit of the Convent of Le Cenacle this afternoon at 3 o'clock at the residence of Mrs. Edward I. Cudahy, 1501 North State parkway.

The Service Star legion, of which Mrs. Frederick W. Bentley is president, will give a variety program April 25, at 2 o'clock, at the residence of Mrs. George W. Dixon, 1250 Lake Shore drive. The proceeds will go toward the legion's work among the 4,000 disabled soldiers in Chicago hospitals. Mrs. J. Ellsworth Gross is chairman of arrangements for the card party.

Mrs. James A. Patten, Mrs. Murry Nelson, Mrs. Harry Pratt Judson, Mrs. Leland Taft, Mrs. Moise Dreyfus, Mrs. William Brewster, Mrs. Walter L. H. Smith, Mrs. Russell C. Smith, Mrs. Wilton E. Martin, Mrs. Edward S. Beck, Mrs. Edgar Lee Masters, Mrs. Charles H. Daly, Mrs. Henry K. Webster, Mrs. Jacob Bauer, Mrs. Thomas Hinde, Mrs. Herbert Perkins, Mrs. Milan H. Hull, Mrs. Francis Tabor, Mrs. Alice E. Beuller, and Mrs. J. Ogden Armour are among the patronesses for a series of talks on "Going to Paris" by Miss Cara Laughlin. The talks, three in number, will be given on successive Sunday afternoons, starting next Sunday, at 3:30 o'clock, in the Grace Hickox studio in the Fine Arts building.

"Candidates and Issues of the Primary Election" and "The Coal Strike" will be the main topics to be discussed at the current events classes led by Mrs. E. S. Adams and Miss Julie R. Adams this week. Today's class will meet at the residence of Mrs. George J. Fairweather, 1448 North Dearborn street, at 7:30 o'clock. The class, conducted by Mrs. T. T. Watkins, 201 Dempster street, Evanston, and the south side class Thursday at Mrs. F. Connor's, 5645 Woodlawn avenue.

NEW YORK SOCIETY

New York, April 2.—[Special.]—Mrs. William Van Brunt Findley, who has been living in Rio de Janeiro, Brazil, arrived Saturday, and is at the Plaza James W. Gerard, former ambassador to Germany, gave a luncheon party at the Carlton Saturday for Mr. and Mrs. Julian M. Gerard.

Mr. and Mrs. Edward J. Goech of New York have returned from Pasa- dena, Cal., where they have been re- sident since early in February.

Mrs. Brennan Washington and her sister, Miss Beulah Bruce Brennan, sailed Saturday on the Olympic to spend the summer abroad.

A reception will be held at the residence of Mr. Willard Straight, 1136 5th avenue, on the afternoon of April 5, in connection with the Beres college million dollar necessity fund.

To Make Your Clothes Look Like New Just Call Up IRVING 0322

When you send garments out to be cleaned or dyed are you sure they are safe? We insure our customers against loss by fire or theft while their property is in our possession!

Safety, however, is but one of the specialties of Salzman's Laundry. Our methods are exceptional in many respects—our equipment up-to-the-minute. We pride ourselves on the QUALITY of our work.

We clean and press in a new and better way. Ladies' suits or dresses only by themselves. Our motor fleet calls for and delivers. Phone and we will call.

Brilliant Dinner Marks Opening of Longchamps Season

[Chicago Tribune Foreign News Service.]

PARIS, April 2.—About 350 persons attended the weekly dinner and dance at the Ritz hotel tonight to celebrate the opening of the spring season and the first day's racing at Longchamps. The affair marked the zenith of Europe's social season.

Royal potentates many distinguished statesmen, well known financiers, and a number of elegantly gowned women were in the ultra fashionable gathering at the dinner parties.

Mrs. James A. Patten, Mrs. Murry Nelson, Mrs. Harry Pratt Judson, Mrs. Leland Taft, Mrs. Moise Dreyfus, Mrs. William Brewster, Mrs. Walter L. H. Smith, Mrs. Russell C. Smith, Mrs. Wilton E. GENERAL WOOD'S SON and Miss Thompson Married in Manila

[Chicago Tribune Foreign News Service.]

MANILA, P. I., April 2.—Miss Katherine Thompson of Wilmington, Del., and Second Lieutenant Osborne Wood, son of Governor General Leonard Wood, were married here today. The ceremony was performed at the Malacañan palace, official residence of the governor general.

The higher officials of the Philippine government, a number of army and navy officers, and a number of personal friends attended the wedding.

Lieut. and Mrs. Wood departed for Shanghai, China, on the steamer Wentworth shortly after the wedding. They will spend a month in China and Japan before returning to Manila, where the lieutenant will resume his post as aide to his father.

Miss Thompson has been the guest of Miss Louise Wood, sister of the bridegroom, for the last six weeks. She is the daughter of Mr. and Mrs. Henry B. Thompson and a granddaughter of Brig. Gen. James H. Wilson, retired.

Using Gas

The Most Effective Short-Cut to America's Greatest Market for Retail Sales

The World

NEW YORK

ANY OF THE CONSPICUOUS advertising successes of recent years have been accompanied by the steady pop of exploded theories. None of the latter have gone off with a louder bang than the age-old superstition about "class circulation." It used to be that the advertiser who desired to keep his merchandise strictly confidential because he thought that it cost more than the "mass" would pay, centred all his expenditures in newspapers and magazines of small circulation, with the inevitable result that when the war and its succeeding period of readjustment

brought about a vast shifting of national wealth he found several millions of perfectly well-to-do folks who had never heard of his product.

A glance through any of the confessedly "class mediums" of a decade ago reveals a staggering mortality among manufacturers who advertised to please themselves rather than to reach new consumers of their products.

THE WORLD, Morning and Sunday, has the largest local circulation among the morning newspapers of its field in New York, and it is duly proud of the fact. It strikes the dominant newspaper note in a city that is just now erecting 100,000 new homes after having spent nearly \$300,000,000 in building operations a year ago. Any attempt to estimate the value of the manufactured articles, all capable of being profitably advertised, destined to go into these homes would be futile.

The buying impulse, once aroused, knows no bounds of "class" save the extremes of great wealth or of deep poverty. Savings banks have never been a recourse of the rich, yet the savings institutions of New York State during the year 1921 increased their deposits \$163,500,000—a vast fund laid away against a return to normal prices, not by the wealthy but by what theorists have pleased to call the "mass."

This nest-egg is in the process of being hatch'd in the shape of increased merchandise turnovers in every line of trade. Its expenditure is being shaped by the advertising of broad-visioned manufacturers who have never lost sight of the fact that their profits came from numbers—the greater the audience the larger the sales.

Nothing could more conclusively indicate the strength of THE WORLD'S position than the fact that during 1919, 1920 and 1921 the fifteen leading department stores of New York used more space in its morning and Sunday editions and in THE EVENING WORLD, than in any other two-paper group in the city. The actual figures for the year ending December 31st, 1921, are:

(IN AGATE LINES)	THE WORLD Morning, Evening and Sunday	Nearest Morning, Evening and Sunday Competitors (Two Papers)	THE WORLD'S Lead Over Competitors
Papers Under One Ownership	6,485,692	5,350,730	1,135,962
Papers Under Separate Ownerships		6,125,902	360,790

This group of department stores represents the largest purchasers of newspaper space in America. They expect every dollar expended in advertising to bring back approximately \$30 in sales within forty-eight hours, and they concentrate their advertising in THE WORLD, morning and Sunday, and THE EVENING WORLD, because they reach a larger audience at a lower rate per line per 100,000 copies than any other paper or combination of papers in New York City. To question the predominance of THE WORLD and THE EVENING WORLD in New York is to doubt the combined judgment of the foremost merchants of the United States.

It is through this group of retail stores that the vast bulk of advertised products of every nature reaches the consumer. Since the merchant recognizes these papers as his most efficient mediums for reaching the buying public of Greater New York, do they not form the logical channel through which the manufacturer may at one stroke reach both the retailer and the consumer?

"SATURATION" is seldom attained either by a newspaper in the matter of circulation or by the manufacturer in the matter of distribution. It is most closely approximated in New York among morning newspapers by THE WORLD, nearly 90% of the 350,000 readers of which reside within the retail purchasing zone of the Greater City.

QUESTIONS TASTE IN CASTING DOUBT ON ALIEN BONDS

BY O. A. MATHER.

In the last few years, and particularly since the close of the world war, issues of bonds of foreign governments, and of foreign to American companies, of hundreds of millions of dollars have been floated in this country. In the main, these issues have been readily absorbed by American investors. A number of the earlier of these foreign issues were short term obligations and were promptly paid off at maturity.

Yet recently there has been considerable criticism regarding foreign obligations in this country, particularly in Europe. Issues of unassisted countries, particularly in Europe, including political, economic, and financial difficulties and the prospect of future armed conflict, have been used to cast doubt on the safety of such investments. These criticisms have resulted in a sort of censorship on foreign loans by the American state department.

True, but Hardly Justified.

It is not to be denied that such criticisms are more or less intended in fact to serve as a deterrent to investment in foreign obligations, but their use as a deterrent to investment of American funds in foreign obligations is open to question. Suppose the situation were reversed and the American government or municipalities were seeking to place loans abroad—which very thing they were doing not so many years ago. Americans are proud of the strength of the industrial strength of their country and hold an abiding faith in its governmental securities.

But how might a European, or any foreign investor, view our political and economic situation were he and his countrymen asked to invest a large amount of savings in American governmental securities? Suppose even he had been in this country for a short time, gleaned information from the newspapers, magazines, and personal discussions.

What Foreigner Might Write.

The foreigner might write back to his countrymen, seeking advice on investing in American securities, something as follows:

"The United States presents an interesting example of how a country with enormous resources may be in a financial condition far from satisfactory, and politically may be almost in a state of chaos. Witness the following disquieting facts:

"This country has entered the throes of a great labor difficulty, more than 500,000 coal miners having suspended work. What may this not mean toward embarrassing the industries, hardly yet emerged from a long and serious depression? And may it not be attended with violence that may still further disturb somewhat troubled political conditions?

"The treasurer of the American government has stated the budget for 1922

avoids further diminution of trade if this step is taken. The political situation is in many respects disquieting. Congress, instead of dividing along the old party lines, is splitting into 'blocs' representing special class interests, a development which many view with alarm as striking at the very basis of the American commonwealth.

"A contempt for law and order pervades the land, the amendment to the constitution enforcing prohibition of the liquor traffic being openly violated. The newspapers evidence a lack of respect for the law, of the patriotic sentiments of citizens. The last administration of the government sought to quell radical sentiment by deportations. The present administration appears desirous of conciliating radicals and recently has pardoned the most prominent offender, Eugene Debs. Still there remains a large class of individuals, including some educators, who sign their letters 'Yours for the revolution.'

Things Not All Well.

"These adverse factors justify one in assuming that things are not well with the United States, and I cannot advise our countrymen to invest in the securities of the government."

Con'td. on page 2.

A good deal of the criticism is well founded.

FINANCE WORLD AGAIN TURNS EYE ON STOCK MART

The New York Times.

New York, April 2.—[Special]—The grain exchange market, the grain market, and the market for investment bonds have so far held the center of the stage in all serious observations of the drift of affairs, that it was something of a novelty to find the stock market last week taking the central place.

It is not that Wall street or the general public had lost interest in the recent stock market. Quite aside from that harnesses fraternity who sit all day by blackboards matching views on the particular stocks which they have "heard" are going to "move," the public always glances at the daily stock table to see what it shows. If, anything, as to finance sentiment over the business situation.

During many weeks, however, the market had merely testified in a desultory way that the general movement of apprehension and liquidation had ended. Professional speculators would at intervals rush in to buy stocks from one another, and when prices had risen sufficiently would again seek to obtain a profit, and prices retained some of the gains after each occurrence of the liquidation. This had no very obvious meaning beyond the fact that what Wall street calls "official sentiment" or "commission house opinion," was looking more favourably towards intravest values.

Speculators Make Wrong Guess.

What attracted considerably more attention in last week's stock market was the fact that when professional speculators, having decided that prices were too high and did not take account of such news as the coming coal strike, did stocks heavily in expectation of a prolonged reaction, the reaction refused to come. People who were expected to sell their stocks kept them; people who were about to sell them never level headed buying came in to prevent the purchasing orders that the professional speculators had to beat a hurried retreat.

This was the kind of incident which impresses Wall street, from the very fact that what had appeared to be consensus judgment among professional experts had not been accepted by the investing community at large. For this there could be other obvious explanation than the judgment that the people who would sell their stocks because of the bad financial situation were not to be relied upon to do so.

Market Forecasts Future.

In this respect, the week's stock market probably fulfilled its traditional function of forecasting the financial future. How important or prolonged a business reversal is foreshadowed must remain in doubt. Probably even the investors or speculators who at such time buy stocks expect them to sell them would not be able to agree on the time to that question.

Prices of stocks have advanced substantially since the beginning of the year; statistical averages show an all round gain of about 10 points to date.

But even existing prices, although now about the average of any day in 1921, are 200 points below the last half of 1919 or the first part of 1920. This of itself is no measure of uncertainty as to scope and time of the trade recovery.

The question of the scope of coming price revival is obviously in a peculiar way with the bond market. Prices for investment bonds have continued to move upward in a far more sluggish way than those of railway or industrial shares, and the bond market has indicated the presence of an outside public, as to stock market has not done.

Reason for Bond Situation.

It has frequently been asked in Wall street why there is no reaction, even usual, in bond prices after the market advance which has brought them nearly up to the highest level since the panic.

Reasons for reaction in that market have been rendered in the past in new securities but the profession at such high rates as to draw interest of capital out of existing bonds; a rise in money rates, such as would render less attractive the yield on outstanding bonds at present prices, or so vigorous a reversal of business as would divert from bond income securities the capital which we placed in them because it was not in the idle trade.

The bond situation will come, but it is highly doubtful if the interest rate on the market will be high enough to compel the present position of the older bonds.

Of the rise in money rates there is no reason whatever; bank reserves and loan accounts both point to a lower rather than a higher market before the end of the year. But return of really great activity in general trade would operate quickly by reducing the volume of capital available for investment purposes. This is one reason why a rise in the stock market, if had avoided on expectation of just such a change in business conditions, would be inconsistent with the present movement of the bond market, which is based on assumption that the capital now invested in it will be released.

Genoa Conference Problems.

We shall soon have with us the conference of the Genoa conference—unfortunately by a political accident in the house of commons to Lloyd George. The curtain has about closed on a economic gathering that its general purpose is approved by every one, but that which is in progress as far as far as intimate is involved with the utmost skepticism.

The truth is that what has thus far generally looked out regarding the plan of economic recommendations or agreements has consisted mostly of decisions to be made at the conference cannot accomplish. It cannot stabilize exchange. It can hardly substitute a new set of values, a kind of commercial Volapuk, for the London and New York open market rate on Holland, Germany, or Australia.

If it gives advice regarding revaluation of the central European currency system, whereby redemption of their paper currency could be made in three-quarters or one-half as much gold as the statutes contemplate, it would repeat the same on the general regulations which have been in force in the episodes of economic history.

It is to come of the controversy over whether soviet "business men" to the council table, the markets are not

WANTED—FEMALE HELP.

Stores and Offices.
STENOGRAPHER—EXPERIENCED, WITH salary to correspond to state age and qualifications for work. Apply to Mr. Collier, secretary, 1025 W. Jackson Blvd.

STOCK GIRLS—EXPERIENCED, COLORED.
Must be competent to handle large volume. Apply to W. J. Jackson, 1025 W. Jackson Blvd.

SWITCHBOARD OPERATOR—TOP-COMPETENT.
Small board; salary \$17 to start; good opportunities for advancement. Address L. A. 149, Tribune.

SWITCHBOARD OPERATOR—EXPERIENCED.
Also operate typewriter. Room 218, Birch Co., 1811 Benson av., Rogers Park 0245.

TYPISTS.

CORRESPONDENTS.

FILE CLERKS.

UNDERWOOD BILLERS.

PERMANENT POSITIONS ARE OPEN TO GIRLS OVER 16 YEARS.

APPLY READY FOR WORK.

ELMER RICHARDS CO.,
561 W. 56th-ST.

TYPIST—COMPETENT OPERATOR FOR filing in forms; pleasant working conditions; salary \$15 per week. Address B. 211, Tribune.

TYPIST—GOOD AT FIGURES. GOOD opportunity for reliable, efficient and ambitious. Apply to the HOWARD STATION, 111 W. Jackson.

WORK FOR YOUNG OR MIDDLE AGED. To operate a commercial duplicator; no experience necessary. Apply to HEID, MUECH & CO., Clark St. Bridge.

YOUNG WOMEN.

STRONG AND ACTIVE.

FOR ORDER FILLING, PACKETING, DRAFTING, TEST PACKING, AND WEIGHING. SEARS, ROEBUCK & CO., HOMAN-av. AND ABTHINGTON-ST.

Executive and Managers.

GOLD IN THE MINE.

Many get their share. Others have so many rays. Get quick money. KNOCKS. Not carrying. Room 312, 81 E. Madison.

Factory and Trades.

ALTERATION HANDS—

EXPERIENCED ON SKIRTS.

Address to the Alteration Office, CHAS. A. STEVENS & BROS., 10 N. STATE-ST.

ATTENDANT—WOMAN IN PHYSICAL culture sanitarium. Apply to DR. TATE, d. p. m. 825 S. Ashland-blvd.

ALTERATION HANDS, experienced, to work on gowns and skirts. Apply 9th floor, Retail.

CARSON PIRIE SCOTT & CO.

ALTERATION WOMEN—EXPERIENCED ON PHYSICAL culture sanitarium. Apply to DR. TATE, d. p. m. 825 S. Ashland-blvd.

ALTERATION HANDS, experienced, to work on gowns and skirts. Apply Monday and Tuesday between 10 a. m. and 4 p. m. H. J. STEPHENS, 105 South Dearborn-st.

GIRL WITH EXPERIENCE in stamping on dressmaking. Apply 10th floor, middle Wabash Building.

MARSHALL FIELD & CO., RETAIL.

GIRLS.

For stitching, closing, and binding paper boxes.

SEARS, ROEBUCK & CO., HOMAN-av. AND ABTHINGTON-ST.

GIRL—FOR LIGHT FACTORY WORK; must be willing to leave city. Apply Monday and Tuesday between 10 a. m. and 4 p. m. H. J. STEPHENS, 105 South Dearborn-st.

GIRL WITH EXPERIENCE in stamping on dressmaking. Apply 10th floor, middle Wabash Building.
